African Game Trails

Synopsis

President Theodore Roosevelt was a world-renowned hunter, conservationist, and scholar. In 1909, Theodore Roosevelt and his son Kermit embarked on a hunting expedition to East Africa. In this must-read memoir, Roosevelt recalls exciting hunts and kills. More than just an average hunting book, *African Game Trails* is an account of the ups and down of life on safari, also chronicling the culture of East Africa, its people, animals, and flora. He collected specimens for the Smithsonian Institution and for the American Museum of Natural History in New York, providing thousands of invaluable samples for their collections. Roosevelt's group was led by famous hunter-tracker R.J. Cunninghame, and often accompanied by Frederick Selous, a famous big game hunter and explorer. *African Game Trails* is a detailed account of this thrilling adventure.

Roosevelt's compelling recollection of the hunt ensures this book is essential reading for fans of the 26th president and hunting enthusiasts alike. "[Roosevelt's] descriptions of the land, the people and the game he encountered are as colorful and readable today as they were in 1910, when this classic was originally published." • *Dallas Morning News* "Frequently lightened by touches of genius and always readable." • *The New York Times* Theodore Roosevelt (1858 – 1919) was the 26th president of the United States and a noted sportsman and naturalist. He died in 1919.

Very enjoyable read. Quite an adventure in days that will never come again.

Can't imagine anyone today who might run for President, with character as admirable as TR. Good writing throughout, and good storytelling, with sympathetic descriptions of people, places and beasts. In several passages, he soars to crystalline, lyrical writing, as good as the best.

It was good but not what I expected as far as the hunting stories went.

Excellent book

Great look at safari in africa over a hundred years ago.

As acquaintances, associates or porters sicken, die of 'fevers' and illness, or get mauled by wild animals, TR troops along with vivid descriptions of his experiences doggedly hunting 'museum specimens' in early 20th century Africa. Obviously dated with references to 'white man's country'

and such, Teddy shows leadership and compassion for all who accompany him on this long and arduous expedition.

All of it was interesting, from beginning to end! All those interested in hunting, history, or wildlife will love this read! Great read!!
