Customer Reviews

New updated info. very helpful. Filled with great color photos and insights into this rich region.

Exactly as described. Wonderful for touring Provence.

Great guide book, has all info on what to do, see, and eat in Provence. Followed a lot of their recommendations and was pleasantly pleased

Michelin green guides are always tops.

Used for trip to Marseille and surrounding area: good maps, accurate info.

Ended up getting a Garmin for our trip, so didn't use.

Excellent with a great amount of detail, sometimes too much.

I keep trying to use it for my travels and it's just not working out for me. Definitely the least favorite of any travel book I've ever used. There are few and tiny maps of the less major cities, it provides no public transport info at all (I know it's a driving guide but SOME info would be nice), and is heavier on 'background' than here-and-now practical info. I won't buy another green guide.
