Purchased this book to get some idea what we might get to see when we're in the Loire Valley next summer. The lovely photographs and narrative of so many of these magnificent structures led us to change our plans and stay a little longer. The area guidebooks give you more information with lots of details...but this wonderful book really is the icing on the cake for travel planning and will be our lovely souvenir of our visit when we return.

Not just a picture book, this has historical background on each property. Very informative as well as beautiful! Makes us want to go back to France and see more!

We own this beautiful book. It is filled with high quality photographs, portraying the true beauty of the Lorie Valley. We are purchasing one more copy as a gift for a dear friend who traveled with us to

Chenonceaux, and Chambord. Our personal photo's did not do justice to the true beauty of these castles. This book will be on our coffee table, to remind us of the breathtaking experience we had, while being in the presence of such lovely architecture. I highly recommend this book!! We have visited France in 1997, 1998, and 1999.

Awesome book! If you've been here this is a perfect way to remember it.
