Customer Reviews

I just love the pace of the stories and the story itself is so thought out.

Diana Gabaldon is a creative genius! Hard to put these books down when you read them. As my

grandmother use to say, every page "jerks your hair through the wind"!

Dianna us a fantastic writer

Good book

I am pretty sure the author of the Outlander and Lord John books, Diana Gabaldon, has not approved this. For one very obvious reason, she has the reading order published for free on her website.

This is a total waste of time and money... there is no "checklist" for READING order, it simply lists all the books and short stories based on when they were PUBLISHED, which is no help at all.

This was a waste of time. I know the reading order of her books. I was hoping that there would be some light on where the Lord John series and some of her short stand alone books come in but that was not to be. The rest of the books tries to teach you how to speed read...

I had expected this title would explain the chronological relationships between the Outlander and Lord John series, but it only provided the dates of publication of each book, information which is readily available anywhere online. In addition, the majority of this download is trying to sell you on speed reading.
