Advanced Tarot Secrets (Aphrodite's Book Of Secrets 3)

Synopsis

Here's how to get 3 to 5 times more information from each spread you cast right now: Ask better questions, do all of your pre-spreadwork, and verify the accuracy of your spread before you start making any predictions. Advanced Tarot Secrets illustrates, step-by-step, how to do all of this. You are about to learn how to spot patterns in spreads, find spreads hiding in the spreads you already use, and how cards interact with each other. This book reveals the advanced spread techniques and trade secrets used every day by the top psychics in the world. It is a how-to-do-it handbook for the professional who charges \$100 to \$1,000 an hour to wealthy clients who expect results. These skills are essential if you are going to read for celebrity or corporate (or government) clients. Improve your accuracy and strengthen your intuition by practicing the 11 new exercises and playing the 6 new games detailed in this book. You will learn how to: Find lost items and missing people with the Tarot Manifest practically anything you desire out of thin air using your cards Read the distant past (and future); great for solving mysteries and crimes Solve problems and brainstorm with the Tarot Overcome writer's block and master storytelling in the section specifically for authors The Tarot is not a parlor game. In the hands of a master it is a research tool used to read the future and rewrite the events to be. This book is the official textbook for the House of White mystery school and it will take your readings to a level of mastery that puts you head and shoulders above most Tarot readers you will ever meet. There is no guesswork involved with the Tarot, or this book. There are time-tested techniques that work, and it is time that you learn and use them. Advanced Tarot Secrets picks up from where The Easiest Way to Learn the Tarot Ever!! left off. You build on the knowledge you already have to deepen your bond with your cards and make them reveal layers of information from the same exact spreads you are using right now. We start you off by learning and doing new exercises, all designed to strengthen your intuition. These simulate the exact methods you use in "real life" readings, and make you infinitely more comfortable reading for other people. Next we introduce you to 6 new games that teach you how to see the various layers of meaning each card offers, and how cards interact in a spread. These games help you understand how the Tarot reflects the intricacies of daily life: In a simple ten-card spread you can see more details than three other people reading the same spread. Next come advanced spread basics and advanced spread techniques. Here you apply everything you learn in the exercises and games: Quick and easy ways to clear your deck between clients (useful at parties or working psychic fairs and hotlines) Why every spread needs a protagonist How to instantly verify the accuracy of your spread (no more bad readings ever) How to modify your favorite spread to meet your needs for each reading Hidden spreads, spread patterns and themes,

the four passes through a spread every reading should have When to use clarification or expansion cards, how to read cards face down and why How to give accurate “no-spread readings” And several other advanced techniques Once you understand all of these things, you can dowse with the Tarot, work on archaeological expeditions, work for treasure hunters, work with stock analysts to predict economic trends, remote view (we don’t call it “spying”), solve any problem, design your own spreads and decks, and charge a LOT more for your services. Advanced Tarot Secrets is not “yet another book on the Tarot,” it is a Tarot revolution.

With Advanced Tarot Secrets, Dusty White seals his reputation as a Tarot master teacher once and for all. For far too long, Tarot students (me included) have struggled to grasp the meaning and mystery behind these iconic images with little or no success. Reading more Tarot books just led to more confusion since many of them seem to contradict each other. Sadly, too many Tarot students just throw in the towel along with their Tarot deck and give up. I know I did. Several times. But with

White's book, our eyes are at last, opened wide, the veil is lifted and we gain entry to the amazing world of Tarot secrets that were hiding there right in front of us all along. Who knew? As it turns out, we just needed the right Tarot teacher to guide, teach and show us the way. Dusty White is that teacher. Mr. White's knowledge and love of the Tarot shines through every page, every exercise and every word. You won't find a better teacher or a better book. Start with White's, *The Easiest Way to Learn Tarot Ever!*, then read *Advanced Tarot Secrets* and you won't have to read much else. Although you can and probably will. Just be sure to read these first. Dusty's style is down-to-earth and conversational, which makes the Tarot easier to grasp. You feel as if he is standing right next to you showing you what's in the cards as he cajoles and cheers you on. As your Tarot tour guide, White points out the many connections and correspondences that are hidden in the cards and the different spreads. Unlike some teachers, he holds nothing back and tells all. Just as White's, first book demystified the Tarot for beginners and students of all levels, *Advanced Tarot Secrets* goes even further. Dusty White helps Tarot apprentices around the world rise to become Tarot masters in their own right. No, this won't happen in one reading of White's books, maybe not even three or four, but with study, review and diligent practice, mastery of the Tarot is within reach of anyone who is motivated and owns a simple deck of cards and Dusty White's books. Welcome to the real World of Tarot.

Like many of the previous reviewers, I read this book after finishing *The Easiest Way To Learn Tarot Ever*. I found that book to be an excellent introduction to Tarot. It's very much a stand-alone resource, with card definitions, exercises, and a good collection of spreads from basic to more advanced. (He starts with one card spreads and moves all the way to a modified Celtic Cross and a 12 card astrological spread.) The exercises are geared towards building a relationship with the deck, and (once you've mastered card meanings) giving more fluid, intuitive readings. *Advanced Tarot Secrets* continues where the last book left off. While the prior book is geared towards getting a person from a beginner level to proficiency, ATS is geared towards increasing that proficiency to the point that one could read professionally for others. The book is divided into five sections:- New exercises- New games- Advanced spread basics- Advanced spread techniques- Fun things you can do with the Tarot. The first two sections will be familiar to anyone who's read the first book. It's a new set of exercises and new ways of learning the cards. The next section, advanced spread basics, is where things kick up a notch. It gives examples of what questions to ask, and what type of spread to use for different sorts of questions, and what to expect when working with clients. Advanced spread techniques, the next

section, talks about building a connection with clients, and goes into great depth about how to work with the Celtic Cross variant taught in the previous book. Here the reader is presented with multiple ways to analyze the same spread to yield a greater amount of information. Six pages (with examples) are devoted to what Dusty calls "mini-spreads" found within the Celtic Cross, and explain what sort of information can be gleaned from each one. The last section of the book is devoted to advanced uses for the Tarot. It's 75 pages long, and 45 pages are devoted to manifesting with Tarot cards. By this point the book has taken us beyond Tarot for divination, and into its more esoteric uses. I am writing this review approximately a year after purchasing both books. I've worked my way through the first book and am currently working my way through this one. Dusty's writing style is casual and to the point, and he's very good at getting his knowledge of the cards across in a way the reader can benefit from. Both books purchased together are less than fifty dollars. For that price, a whole lot of knowledge is provided enough to take a person from novice to professional, if that person genuinely applies his or herself to the task. So yeah - five stars.

I facilitate a monthly Tarot discussion group for a non-profit organization. There are tons of ideas in this book for group exercises, games, and even some fun facts thrown in. The author's no-nonsense attitude may put some people off, but you can't say he's not genuine about himself and his way of thinking. It has been a way for me to gather new and different ideas for the lesson plans and handouts that I create without having to filter through the overwhelmingly mind-numbing amount of information out there on the internet. It's all here in one place and the possibilities are endless if you are willing to use your imagination and work to blend in your own ideas and knowledge. The 4 stars instead of 5 is because of the writer's arrogant, and sometimes condescending style of writing can become irritating for some.
