Great intermediate arrangements of the Harry Potter music. My students love this book and can't wait to learn the music! As a piano teacher, it's important to supplement the lesson books with music my students are eager to play, and books like this do the trick! Not for beginners, this book

takes the intermediate student on a musical adventure where they play songs and in the end, love what they hear. I find it encourages them to practice because they enjoy what they're playing and look forward to finishing whatever piece they're working on. Super! Arranged very well for piano students who are ready for a challenge!Â Harry Potter -- Sheet Music from the Complete Film Series: Easy Piano

This is an excellent book of piano arrangements for most of the music from the Harry Potter series. I have taught piano for 30 years and these arrangements are intermediate to advanced. The arrangements are well done and fun to play.

Love this. I wish I would've known the level more accurately though. I would say a piano student that has had several years of lessons would be comfortable with this (middle school age).

This is exactly what I wanted! The pieces are simple enough that you can learn them with a bit of work but advanced enough that you don't sound like an idiot playing one note at a time (I'm looking at you, Easy Piano). My one complaint is that it doesn't include Christmas at Hogwarts, which I thought would be included without question - I was tricked by Harry in Winter, but it turned out to be really pretty so I guess I'll get over it.

I love all things Harry Potter. When I found a book with music from the entire film series I knew I had to have it. The music is beautiful. Has 132 pages. Includes at least 2 pieces of music from every movie.

has all the music you want to play, NOT SIMPLIFIED so can be challenging for the beginner player

Easy piano, but not for beginners. Has a ton of songs and lots of pictures. Wish it was spiral bound, cause it would be easier to prop on the piano!

With the addition of the never before published "Leaving Hogwarts," this product is phenomenal. They truly chose the best pieces of each movie, however, A "Window to the Past" from Prisoner of Azkaban is missing. For some, Prisoner of Azkaban is the best score, and this product definitely plays tribute to "Double Trouble" but misses out on the other great theme of the third movie. There are a bunch of selections from the first movie, then the second and third get ripped off. There is the

great Spider theme from Chamber of Secrets, along with "Gilderoy Lockhart" and the "Flying Car" that are missing. But apart from the absence of these pieces, this product is a great buy. Retail on each individual movie's sheet music is \$15, this book is less than \$20 and comes with the best of the Harry Potter scores (for the most part). I recommend it to every Harry Potter fan, especially for the price. Even if you don't play piano or read sheet music, it is amazing just to have the complete collection in one book for such a great price.
