Customer Reviews

Used this book during extended school breaks to keep kids busy and maintain their skills. My children enjoyed working a couple of pages a day from this workbook.

Very well written and organized!

We love Spectrum text books. Just right amount of instructions to help your child learning. We have many Spectrum books and love all o them. Highly recommend.

Good for students who motivated to do basic enrichment on their own

Very good

My grandson is not easy to teach! We bought the a Spectrum Series for his tutor to use during summer or holiday breaks. Works great, easy to understand and reasonably priced.

This is a great resource. Currently tutoring a student, the exercises are easy to understand/explain (esp the things I need a quick refresher on lol) and he seems to enjoy doing them. Highly recommend as a resource for supplemental help or review before. Entering next grade level!!!

Great supplement for homeschooling curriculum. Easy pages to tear out with practice exercises that can utilized daily or weekly. And great price!
