# Dog Training: The Full Guide To Beating The 20 Most Common Obedience Issues Of Your Dog And Puppy (puppy Training, Housebreaking Dog, Housetraining Puppy, Obedient Dog, Obedient Puppy)

## **Synopsis**

Second Edition with more than 85 pages to help you overcome All the issues of your fury one. Also included 10 Educational Games to Play with your dog!BONUS !!! 10 EDUCATIONAL GAMES TO PLAY WITH YOUR DOGAlso a free additional eBook to download on my website when purchasing this one.In this book you will learn everything you need to know about your dog or puppy and how to overcome with ease their temporary behavioral issues!Be ready to discover the right obedience techniques that will bring back the harmony between you and your lovable dog.Dogs obedience problems often seem desperately impossible to handle and no matter what you are doing, your dog simply won't obey. Well, let us tell you that these days have come to an end. Like in any different field you have a teacher and a student. In the next 89 pages, you will be the student and also the teacher of your dog. Whatever the issue is with your little one, you will overcome it and quicker than you think. The most important are to remain consistent in your education and not to break the rules yourself.It is important to note that almost all dogs are good-hearted and can be taught how to conduct themselves correctly. Therefore, you shouldn't let your dog's behavioral issues dissuade you. The most important aspect is to figure out which training techniques works best for them and then consistently applying the same behavior in dealing with their disobedience."Best in its category, right to the point, the author knows her dogs well and teaches the right techniques the right way. Well done!" James . D.This guide is here to help you discover what is causing your dog's behavioral problems and exactly how you can work on these issues and fix them. In this guide, we will teach you what to do and say to your dog to help train and guide him to avoid the disobedient and negative behavior he struggles with. We look at everything from chewing your socks to whining while you are gone and hope that this guide will give you and your dog a chance at a happier and healthier relationship!Here are the major issues you can expect to overcome in this book: Bladder Problems, Aggression issues, Digging, Barking, Chewing, Excessive jumping, Darting out the front door, Heaving the leash, Whining dogs, Parting anxiety, Howling in dogs, Mouthing, Begging for food, Stealing Table food, Food aggression, what to do? Humping, mounting and masturbating, Chasing habits of dogs, The come back, Eating too fast, 10 Education & fun games to play with your dog. You don't risk anything when buying this book but only having a better trained dog. Scroll up and download this book now !

## **Customer Reviews**

Enjoyed reading Dog Training. There are steps in this guide which I intend to implement immediately. I have two dogs (a yellow lab and a hound mix) who tend to become aggressive with other dogs. plus their constant barking and jumping are unwanted behaviors. The solutions presented in Dog Training are great and doable. I highly recommend this book if you have a dog that you wish to train properly or a dog in need of retraining.

This dog training book is short but sweet! if you have a dog problem then you owe it to yourself to read this book. Whether your dog is having bladder issues, is aggressive, or simply barking, chewing, jumping and other behaviors than you need to understand how to deal with those behaviors. I loved this book because it does exactly what it promotes. It's clear and concise. It highlights the most common dog problems, explains the reason behind each, and provides you with a solution. hence, this book is all you need if your dog is picking up bad habits. Great read!

What I love about this is that it doesn't only give you instructions on how to teach discipline to your dog. It did explain first the behaviors and reasons why the dog is expressing such attitude and by that you would know how and what kind of treatment you should apply to make sure that you are consistent and firm when it comes to discipline. With this in mind, I am confident that I could create

a good environment and relationship with my dog.

Covers a wide array of issues. Yet "further training" is often recommended without explaining HOW to train your dog. Not enough practical advice to implement. Disappointing and not helpful.

This book really helped with my with my baby Samantha (golden retriever) because she has a very short temper and it has been frustrating to my family. This book really helped and i learned not to reinforce bad behavior done by my dog. the book also mention that a dog can sense your dominance or submissiveness so don't let them take control over your but rather get control over them!

I don't own a dog, but I really enjoyed the book. The book not only teaches you how to train your dog but also covers the psychology behind the so-called disobedience behaviours of your dog. I have a better understanding of why dogs have certain behaviours and how to use reward and punishment to form a new behaviour. If we think carefully, it is exactly how humans can form their own habit as well. I enjoyed the book and I believe it would help you if you own a dog. Cheers!

This book is one of the best written books I have encountered on how to deal with a pet. Out are the ideas of corporal punishment and in are the ideas of love and kindness. If you are like me and love your pets as members of the family then this is the book you want when it comes to training your dog and correcting bad behavior.

This book gave me a lot of new ideas and actually explained in details reasons why dogs have behavioral issues. After reading this book you have tools how to improve and fix barking, whining and other issues. If you love your dog this book is going to help you understand your dog.
