Carolyn Westbrook Home

Synopsis

Using her own beautiful house as an example, popular designer Carolyn Westbrook reveals how to create a home that reflects the spirit of those who live there. Page after page of breathtaking photographs carry you into her world, and offer a glimpse inside the residence Carolyn renovated in gracious Southern style. Her decorating tricks will work anywhere, and can change the entire look of a room quickly, easily, and affordably. Just see how mere paint made her once-unappealing front hall warm and inviting. Find out how to create unexpected eye-catching "vignettes" with vintage collections. Make an elegant statement through the simple but gorgeous use of color and fabric, such as white linen. Westbrook's creativity will draw readers in and help them transform the ordinary into the extraordinary. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

Beautiful book! One I will be keeping for many years!

Gorgeous photos of rooms!

This is a big, beautiful, classy, timeless decorating book and one of my very favorites. What a gorgeous gift this book would make for a dear friend. Take this book up to bed with you and settle

yourself under comfy covers and with a warm soothing cup of tea. This delight will soothe your senses. Each photo is a masterpiece with beautiful details on every page. Every time I open this book I find something new and marvelous. If I could recommend one home decorating book, "Carolyn Westbrook Home" would be the one. Can't wait for her next venture!

Yet another collection of photographic vignettes. A table pushed in front of a door and piled high with odds and ends. A bed with five or six fabrics randomly tossed over it sitting in front of a kitchen cabinet. Not what most would consider practical design. These photos could have been taken in any antique shop--except for the chicken coop. Add some homey little titles like: "The dining room is for sharing" or "in the bedroom I surround myself with things I love". If you enjoy bedroom items in the kitchen or vice versa, this book is a must have.

I love Carolyn Westbrook's romantic style of country decorating and this was the first book I purchased written by her. This is a nice book as a "starter book", especially if you would like to be introduced to Carolyn's classy decorating ideas.

lovely

I saw how everyone was going crazy for this book so I bought it. Loved "Where women create". Rec'd book while nice I was disappointed. Like I said it's nice just thought it would have been something more.

I love decorating books & creating a pretty home but would not buy another title by this author. I prefer AUTHENTIC environments that are simple yet beautiful, and truly meant for daily living with a family. Yes, there are lovely photographs and an abundance of pretty things throughout, but her decorating style is impractical, pretentious and contrived. Not a spot anywhere to really relax due to excessive pillows and expensive stuff everywhere; kitchen shelves packed with too many dish sets, hallway landing loaded with furniture and props, little boy's bedroom anything but "boyish". Couldn't imagine men smoking stinky cigars and smelling up the "red room" as the author muses. Definitely NOT homey but overly decorated and acquisitive like a retail shop. Can't imagine how kids can be themselves in a house like that - UGH! And who has time or energy to wash all those fabrics and linens, sweep, clean, dust, cook, etc . . . and still be available for children and husband??? Certainly not Carolyn Westbrook, as she's WAY TOO BUSY insatiably shopping for MORE!!!
