Grade Level: Kindergarten - 3

## Customer Reviews

Great book! My son loves all the step into reading books this one was no different !

Son loves TMNT - and because of his level of interest, he has taken great strides in learning to read their books, which in turn has helped develop his overall reading ability. I bought this book while he was 6, and there were a few words he stumbled over, but now reads it easily, and so much so, I think he's outgrown it. It's a great book, though, and like the way it's written, to benchmark the reading level for certain ages/grades.

I got this as one of the gifts for my daughter's 7th birthday, and she was soooo excited. She has so many TMNT toys, and puzzles. But, she doesn't have a TMNT book to read. I was so happy when I found this book. The shipping was fast. I was glad because I was worried the package wasn't going

to get there in time for her birthday. LOVE IT!! LOVE IT!!! I will definitely buy more of these books

We love metal head so my daughter was very happy to receive a book with his character in it. The story goes right a long with the episode, which was her favorite one. This is a good read long book for level four.

My students loved this book! Robots, TMNT, the Kraang and the battle's begun. It was the more popular book among the TMNT Step Into Reading books I've purchased.

The pages fell out the first time we read it.

calabanga

This reading level was a lot for my 4 year old but loves the stories and gets so excited to see what happens he starts to turn the page before I'm done.
