# **U.S. Chart No. 1: Symbols, Abbreviations And Terms Used On Paper And Electronic Navigational Charts, 12th Edition**

## **Synopsis**

This edition of U.S. Chart No. 1 has a new name and a new look. Its title is now **Symbols, Abbreviations and Terms used on Paper and Electronic Navigational Charts**. For the first time, U.S. Chart No. 1 presents both of the major symbology sets used for marine navigation. As in previous editions, the symbols used on paper nautical charts produced by NOAA and the NGA and digital raster representations of those charts, such as NOAA Raster Nautical Chart (NOAA RNC's), are presented in lettered sections organized in categories, such as Landmarks, Depths, and Lights. New in this edition is the inclusion of the corresponding symbols used to portray Electronic Navigational Chart (ENC) data on Electronic Chart Display and Information Systems (ECDIS) as specified by the International Hydrographic Organization (IHO).

## **Book Information**

Spiral-bound: 129 pages

Publisher: Paradise Cay Publications; 12th edition (August 1, 2013)

Language: English

ISBN-10: 1937196976

ISBN-13: 978-1937196974

Product Dimensions: 0.5 x 8.8 x 11.5 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

## **Customer Reviews**

NOAA - National Oceanic and Atmospheric Administration  
NIMA - National Imagery and Mapping Agency

This Chart No 1 has all the new symbols on it as well as the ones we are used to reading. They did a great job. The pages are laminated, the colors are accurate. Electronic Nav. charts are included so you can see what symbols are on your instruments. A lot of material for study in this book.

What's not to love about a book filled with little symbols and their meanings? This is the official legend for all the nautical charts published in the US, both paper and electronic. For those of us who

read these, this greatly enhances understanding and usefulness. Should be on every sailors bookshelf or boat.

gotta have it

If you boat, you need charts. If you have charts, you need this book. This is a replacement for the government published chart 1. It is well laid out and easy to use once you spend a few minutes with it and a chart of your favorite area for boating. Quibbles - The abbreviations are split into three sections, so if you don't find your chart abbreviation in one index, go to the next, or the next. I feel that this would be more useful as one index, with descriptions like in a dictionary - Fl G - (All) Flashing Green light.....

Intense! Fun to look at!

Great for what I needed it for

No boater should be without it! Almost too nice to take to sea! Pages are semi gloss appear to be water resistant beautiful colors lots more information lays flat spiral binding User friendly larger size easy to read And electronic chart display information systems ( ECDIS) is a big plus list goes on and on. You need it buy it be safe

Every boater needs to obtain CHART #1... lots of new / updated information for those who use electronic charts by which to navigate..
