Customer Reviews

My 18-month-old son loves playing with these books at a bookstore in town. He drives them all over the place. He doesn't seem very interested in the book's contents, but he has tried to open the book. It has a hook-and-loop closure, and he has trouble getting it open by himself. I think he'll become more interested in the picture of different diggers as he gets older, but right now he's just content to drive the book all over our house.

Our son is 21 months old and loves these books from DK Publishing. We found some at B & N, but the rest are available on . They list the proper name for the vehicle and have bright colorful pictures inside. The book has a velcro fastener to hold the pages together and he can roll the book around

on the floor making it interactive. Older kids may not be interested because it is essentially a picture book, but little guys love them!

I purchased this for my almost 2 yr old grandson for Christmas. We had to read it immediately when he unwrapped it.

I bought multiple books in the Wheelie Book series. They are board books and most have wheels that turn. My grandson loves them because he is a fanatic about trucks and cars. Not much of a story line but more pictures of different vehicles with their names and some info on each. I would recommend.

Kiddo loves it especially since he discovered he can roll it off the table.

High, high reviews from my favorite two year old.

Such a cute book for our little 2 year old girl. Made very sturdy with a velcro strap that closes the book in the front.

2.5 year old tractor addicted son LOVES this book.
