The wisdom of people who really know seafood seasons this wonderful recipe collection. Fresh, fast, and fairly simple--this is what works in the kitchen to keep tastes clean and tempting.. Yet

there's no lack of variety here. I loved the clear-broth clam chowder and Thai-style squid salad no less than the classic crab cakes and lobster rolls, the Italian-style sole piccata and Spanish shrimp with garlic alongside the traditional American baked shad and bluefish. The recipes come from people who have managed to succeed--and in many cases for a very long time--in a business built on what's often unpredictable and always highly perishable. They have to build trust, and if that informs their recipes it also makes them interesting subjects for Urban's interviews. The photos make you want to go visit--and not only for the very good eating but also for the connections the weather-beaten establishments have with history and the sea.

not very good, there are better receipes in yanky magazine
