Jasper South [Jasper National Park] (National Geographic Trails Illustrated Map)

Synopsis

Waterproof Tear-Resistant Topographic Map

The largest park in the Canadian Rockies, Jasper National Park is a UNESCO World Heritage Site with breathtaking mountain scenery and bountiful recreational opportunities. Expertly researched and created in cooperation with Parks Canada and others, National Geographic's Trails Illustrated map of Jasper South provides outdoor enthusiasts unparalleled detail of the region. The map covers the park from the town of Jasper and the Victoria Cross Ranges in the north to its southern boundary and includes such popular points of interest as Athabasca and Sunwapta Falls, Maligne Canyon and Lake, Icefield Centre, and Medicine Lake. Also covered are the neighboring Mount Robson, Whitehorse Wildland and Hamber Provincial Parks and the northwestern corner of Banff National Park with the Colombia Icefield. Explore the area by following the map to trailheads and then along precisely mapped trails, labeled with distance markers and according to designated usage, whether hiking, biking, horseback riding or ATVing. Popular scenic roads are shown as well, including Highway #93A, Yellowhead Highway, Maligne Road and the spectacular Icefields Parkway, shown with distance markers, scenic pullouts and facilities alongside the road. To aid in your navigation the map shows glaciers and icefields, contour lines and elevations, labeled peaks and passes and water features. Recreation points of interest include campgrounds and primitive camps, backcountry lodging and cabins, river access and boat launch points, horse stables and corrals, downhill ski areas and scenic viewpoints. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Athabasca Falls, Icefield Centre, Jasper National Park, Maligne Canyon Maligne Lake, Medicine Lake, Sunwapta Falls. Map Scale = 1:100,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

Book Information

Series: National Geographic Trails Illustrated Map (Book 902)

Map: 2 pages

Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Very sturdy and clear maps. We were backpacking and a couple trails we had planned to do were closed because of weather. I'm SO glad we had this map because it has trails marked, where campgrounds are, the distances, and more. IT IS NOT A TRAIL GUIDE but has a lot of this information. We were able to pick a new itinerary without any trail books just using this map. I'll definitely be getting this brand when we do other trips.

These maps are the best-in-show for trail maps. They are durable and include plenty of detail. If you like to know you've got a good map with you when you go to Jasper, take this one (but make sure you get Jasper North as well)

Good map and very strong water resistant paper. Good detail but at a distance. Map is large also but folds pretty small.

This was very helpful on my road trip I took!

Great planning map, but not enough detail for off trail alpinism

This map has good detail and heavy paper hopefully making for a long lasting map and all at a reasonable price

Together with various other sources very happy with trails we selected. We always had this guide with

us while underway, clear directions.

Great if you're going into the mountains and not getting GPS.
