Synopsis

Day Trading - Tips & Strategies This book contains proven steps and strategies on how to make money trading stocks, futures, fTF, and forex. Here, you will learn everything you need to know to get started in day trading. You will learn not only the basic day trading concepts, but also the analysis tools, and a few proven effective strategies that you can immediately use to make profitable trades. Day trading refers to the act of purchasing and selling assets within one trading day. This trading technique can be used on any market and asset type, but is commonly utilized in the stock market and the forex (foreign exchange) market. Usually, people who are involved in day trading are well financed and highly educated. They have the necessary capital to fund their trading activities. Also, they are knowledgeable about the important skills and principles related to the industry they are in. These people use short-term investment schemes and high volumes of leverage to take advantage of the minuscule price adjustments experienced by certain currencies and shares. In general, day traders perform two vital roles in the market: (1) they are the reason why some markets experience liquidity, and (2) they make sure that the markets are performing consistently. Here Is A Preview Of What You'll Learn...
The Basics of Day Trading
Two Types of Analysis Used by Day Traders
Ten Basic Rules for Inexperienced Day Traders
The 5 Different Types of Tradable Assets
How to Use Options for Day Trading

Customer Reviews

This is an informative book on Day Trading.All of the things, tips and strategies that I need to know about Trading are already included and well written inside. Noah Bennett has done an incredible awesome job in compiling and creating this book.What I love the most is the parts

ÃfÂçÃ â Ã Â“The 5 Different Types of Tradable Assets & How to Use Options for Day TradingÃfÂçÃ â Ã Â• very informative, helpful and well written.This book is really a great resource for those who want to learn more about Day Trading.

This is a very good book for beginners who are interested in day trading. This book has explained a lot in detail, and explained its very effective strategies for day trading. The information contained in this book is clear and very easy to understand, so even if you are not familiar with all day trading, you will not have any trouble learning about the subject. Great done!

IÃfÂçÃ â Ã â„çm really having a hard time to understand this stock market thatÃfÂçÃ â Ã â„çs why IÃfÂçÃ â Ã â„çm glad I found this book to get some useful information and ideas. I think this is informative and easy to understand. Day trading is the act of buying and selling a stock within the same day. This is good for beginners because you will learn many things, tips and strategies in this book.

Five stars? Is that all I can give? Really, this book deserves so much more.The techniques provided on these pages, as well as the suggestion it gathered, are worth far more than five stars and I would consider this book to be a great bargain at twice the price. Keep up the excellent work,Noah Bennett.Highly recommended.

I honestly enjoyed reading this book. I have found out lots of powerful tips and strategies for the trading success. Trading is very popular and useful thing now, Therefore it is important to understand as much about this topic as possible.And no doubt this guide is necessary in understanding trading.

This is a helpful book written in clear language and well-edited. I have had success with the author's trading strategy. Well enough to join a small conversation without being odd. I'm sure this would make a great book to add to a college reading list or course in Business or Marketing.

Outstanding? this word is short of the value this book has have to offer. The most beautiful thing about this book is the fact that in spreading its remarkable information on trading, it cut across all level of trader; the beginners, and the experts. I find this book informative and arguably impacting. The writer has done a great job and should be commended.

This is a helpful book about day trading! The book is a good primer on how day trading works and the basic outline of how to make money in trading. Read more. I give this book a thumbs up for any beginners who need to understand the fundamentals of Forex trading. Everyone should read this excellent book!
