Vegetables In The Garden (First Discovery Books)

Synopsis

A new contribution to an award-winning series features brightly painted, see-through pages that illustrate the inside of familiar fruits and vegetables and enable children to understand the composition of growing things.

Customer Reviews

I choose this rating because I love the overlays and the precise artwork that make the books eye-catching and interesting to young children. The book also gives solid facts that help a child to learn about the topic. I love all the First Discovery Books I've purchased for my preschool classroom and highly recommend them as a great non-fiction literacy component.
