Words cannot really describe what I am feeling right now. J.L. Drake has done it again! I loved Cole even more in this book. He was so demanding but sexy about it!! Savi really is just broken and somewhat naive. It made me sad for her and so angry with her at some points in the book. All the character in this series are always great! I wanted to cry and my heart fell to my stomach. I laughed and got upset. Total emotional roller coaster!! Then, the ending.. So typical of her to leave me hanging... Craving the next book.. For me though, that's what I love most!

Another great read from J.L Drake and she sure did not disappoint. After the horrible ending of 'Broken' I didn't know what to expect from this book but it all works out and they live happily ever

after..... pfft. You didn't believe that right? It's Jodi we're talking about she's evil :) Savannah makes a not so good decision, but I understand why she did it, and it all goes to hell from there. Lots of things start to happen and it wasn't a slow part in the book from there on. Loved all the action, emotions, ups and downs and all the boys of course. Mark is still my favorite, I love their bromance it really makes me laugh. And I love how close Keith and Savannah is, she really needs a friend in all this. Cole though is not my favorite right now but I trust Jodi to fix that in Mended won't you? :) This is definitely another must read!! "I'm sorry for what happened to you, but I'll never be sorry for tracking you down and falling in love with you."

It's always so exciting for me to find a new author to add to my list of favorites and I have to say, it's not an easy club to get into. J.L. Drake is such a gifted writer - her dialogue, outer and inner, is so on the mark and realistic - the characters become real. I had a hard time putting down the first book in this trilogy even knowing there were two more in the series. This book was just as hard to put down and it was over way too soon. I cried, I smiled and I just loved it, even the parts that were hard to read. This is a great plot and so well told. If I have to find a criticism (and I don't have to), I'd wonder why Savannah is in a house filled with special forces and a gym but isn't taught self-defense and is in fact, stopped when she tries to. But that aside, I am so in love with this series. I'm about to start the third and am already grieving the end of the series.

Could not put this book down. The entire trilogy is AMAZING. I was shocked that some people didn't like it. I've had a couple friends read it and are hooked now. I finished this trilogy in 2 days!

I thought this book kept me intrigued as much as the first. I read all three in a matter of a week! Yeah, it's an unlikely situation, but I thought it was a nice quick interesting read.

Wow! I stayed up all night and read this straight through. I couldn't put it down. It definitely was everything I had hoped for! The first book in this series "Broken" was awesome. This second book "Shattered" is phenomenal! Shattered picks up right where Broken left off. I love Savi and Cole and all the other great characters in this book. This series is a must read you will not be disappointed!! cannot wait to read Mended!! Thank God it comes out in June! ã Â Â^Âf Jodi Drake you are a great writer! Great job with this book!!

What can I say, J.L. Drake has done it again. She has a way with words and her characters that

make them feel "real" and not just some fluff for a story. Just like with Broken, the first in the series, I could not put this book down. These books bring out so many different emotions and I love it. Even if there were a couple times I wanted to just slap some of them and knock some sense in but that's what is great about these books. She keeps you engaged and guessing at what's going to happen next. I can't wait for Mended so I can see how this story finally plays out!!!

J.L. Drake's books need to come with warning labels that read: "Careful this book will have you hooked from page one and may cause sleep deprivation due to the inability to put it down!" 5 AMAZING BRIGHT STARS! Once I started reading I did not stop until the end. Shattered was everything I hoped it would be after reading Broken and eagerly anticipating its release. Do yourself a favor and purchase this book, you will NOT be disappointed. I cannot wait for the release on Mended and to see how this mind blowing trilogy ends. Awesome job Drake, keep them coming!
