World Politics: Interests, Interactions, Institutions (Third Edition)

Synopsis

The analytical framework instructors love, with the tools and clarity students need. Why are there wars? Why do countries struggle to cooperate to prevent genocides or to protect the environment? Why are some countries rich while others are poor? Organized around the puzzles that draw scholars and students alike to the study of international relations, *World Politics* gives students the tools they need to think analytically about the field's most compelling questions.

Jeffry A. Frieden is Professor of Government at Harvard University. He specializes in the politics of international monetary and financial relations. Frieden is the author of *Currency Politics: The Political Economy of Exchange Rate Politics* and (with Menzie Chinn) of *Lost Decades: The Making of America's Debt Crisis and the Long Recovery*. His previous books include *Global Capitalism: Its Fall and Rise in the Twentieth Century*; *Debt, Development, and Democracy: Modern Political Economy and Latin America, 1965–1985*; and *Banking on the World: The Politics of American International Finance*. He is also the co-author or co-editor of many other books on related topics. His articles on the politics of international economic issues have appeared in a wide variety of scholarly and general interest publications. David A. Lake is the Jerri-Ann and Gary E. Jacobs Professor of Social Sciences and Distinguished Professor of Political Science at the University of California, San Diego (UCSD). He is, most recently, the author of *Hierarchy in International Relations*. His other books include *Entangling Relations: American Foreign Policy in Its*

Century and Power, Protection and Free Trade: International Sources of U.S. Commercial Strategy, 1887–1939. In addition, he is co-editor of 10 volumes and author of over 80 articles and book chapters on international relations, international political economy, and American foreign policy. He is Associate Dean of Social Sciences and Director of the Yankelovich Center for Social Science Research at UCSD. In 2013, he received the UCSD's Chancellor's Associates Awards for Excellence in Research in Humanities and Social Sciences. Kenneth A. Schultz is Professor of Political Science at Stanford University. His research examines international conflict and conflict resolution, with particular focus on the domestic political influences on foreign policy choices. He is the author of Democracy and Coercive Diplomacy, as well as numerous book chapters and articles in scholarly journals. He received the 2003 Karl Deutsch Award from the International Studies Association, and the 2011 Dean's Award for Distinguished Teaching from Stanford's School of Humanities and Sciences.

Fascinating book! This is being used in my Intro to International Relations class and I think it does a great job in portraying a framework to view events neutrally and methodologically. Very clear writing with many good examples. Honestly changed the way I view the world. It's one of those textbooks you want to keep even and reread after the class ended!

I used this book A LOT for my World Politics class. The writing is easy to understand; the book is colorful and informative. The "interests, interactions, and institutions" aspect is applied thoroughly throughout the whole book (and I think I agree with this perspective). This was well-researched, well-intentioned, and well-written. Bravo.

worked great for my class

The book came in good condition. My teacher uses it for his Global Issues class, however he teaches it in Chinese so this is always good to refer back to when I don't catch a couple of things that he says

cover is made of some weird material that LOVES DUST.

Great

Great Book!

Great book
