## Customer Reviews

I'm about to start a job that will require me to work much longer hours than I'm working now, and my husband works a lot as well, so we're looking into a doggie daycare for our two precious pups. I'm nervous, because our younger dog is very sensitive and neurotic and gets separation anxiety, especially when he's away from home, so it's important that we find just the right place. This has been a great resource!

I run a dog care facility, and I originally picked this book with the thought I could potentially recommend it to new clients. I ended up finding it to be most helpful and informative, as well as thorough. It is a quick and enjoyable read, and I think any dog owner would be well served by reading it!

I read this book with both interest and amazement. The care of own pets has become as complicated as the care of child and in some cases it seems more expensive. The Author has written a well researched manual to which explains everything the reader needs to know about the pros and cons of finding and choosing Day Care facility for their best friend. Worth the time to read any dog owner

If you are now looking for a place for your own dog, it would be a good idea to start first with this book. I found the content inside practical and useful. Thanks Rose Marie for your book

Wonderful book! Lots of great information for pet owners! Would recommend to anyone who has

dogs and works long hours!
