## Customer Reviews

This book imagines seven themed days in Newport--one for the beaches, one for the mansions along Bellevue Avenue, etc. Even if you're staying for a shorter time, this way of organizing is helpful for figuring out what attractions are close to each other. The book also offers great restaurant

recommendations for breakfast, lunch and dinner. Unlike the previous reviewer, I didn't have any trouble with the chapter heading links. Even better, the book provides links to the websites of attractions and restaurants, so you can go directly from the book to get more information about the place that interests you. This book worked well for me on both my basic Kindle and my iPad, but it's especially helpful as an on-the-go guide on my phone.

I just bought this digital book 15 minutes ago. I downloaded it to my iPad. I WANT My MONEY BACK ! The Table of Contents does not work! You click on a Chapter Heading in the Table Of Contents hoping that you will be moved to the Chapter you just highlighted and nothing happens. As a result, your only option left for navigating your way around this digital book is to scroll through the pages, one page at a time - unbearably tedious. Avoid this digital book at all costs. It is a major rip-off !!!

This became our bible. Wonderful suggestions and itineraries. I would highly recommend it! The best part is, having it on my Ipad and Ipod Touch made it easy to take wherever we went!

This gives us choices of things to see and places to eat that we would not have known about. We are really looking forward to our visit.
