Customer Reviews

great product; great seller

I enjoyed a totally excellent buying experience, such that I felt it incumbent on me to bring to the attention of other buyers how great this seller is. My book was better than advertised, in terms of quality. It was carefully packed for its ride to my house. I was baffled by how quickly it shipped and delighted once it got here. A recommended seller, for sure.

Very well-done and easy to read when you want to find a location without a GPS. Even when you are using a GPS and work nights driving like I do, map books are not something you should just

disregard. As a backup, a good book with an overall layout of where you're headed to is good to have, and the Thomas Guide is very easy on the eyes with color contrasts and such. Everything is laid out perfectly.

Got this in Paper of course. Sometimes you just need a paper map to work things out or if you have an unexpected detour. I wish they would update it.

Book was in excellent condition.

Great book to have for a new home town or in your travels. Has helped us find our way around. Large maps, easy to read, done in sections of the towns, cities, & streets. Sturdy pages, so will last for ever. Can be kept in the car without being damaged.

1st ed. means up to 2009 changes in the streets.

great maps and index.
