Emigrants Guide To Oregon & California

Synopsis

A popular guidebook during the western expansion and a valuable collectible today, The Emigrants' Guide was first published in 1845. While the book introduced those heading west to the beauty and habitable nature of the Pacific coast, it had considerable shortcomings - it was the guide used by the ill-fated Donner Party. As a corrective, Randolph Marcy published a more accurate guide, The Prairie Traveler (also available from Applewood Books).

Informative and interesting for anyone who wants to learn about the pioneer experience.

I bought this book by Lansford W Hastings because I have written a musical about The Donner Party. One of the key numbers in the score is called LANSFORD W. HASTINGS where he describes in song what his book is about...a short cut to California. The book is really interesting and full of information...unfortunately, misinformation, because Hastings never took this route....But 87 men and women of the infamous Donner Party followed his book...and the rest is a tragic story that unfolded in the Sierra Nevada Mountains in 1846.I found it an interesting and informative read, and now I can understand WHY the Donner Party chose to go the way they did.....Thanks!

This is a reprint of the faked-up book which caused the horrific Donner tragedy and cannibalism of 1846. (See George Stewart's "Ordeal By Hunger".) I too am using it in a book on a similar tragedy involving the Death Valley 49ers, tentatively titled "The Evil That Men Do". Making reprints of

original source materials, such as this by Hastings, available at reasonable prices is a great service by to America's writers. Hasting was basically a scumbag whose ambitions and lies cost one hundred to die miserable deaths in 1846 and again in 1849. You can read about the heroic survival of one of the Death Valley 49ers in my 1975 book, currently in reprint through and titled "Women of the West" by Dorothy Gray.

Very important historical document. This is the Hastings that the Donner fiasco was blamed on. Don't see that it was warranted. The Donner-Reed party was very rude to each other and their animals and no clue how to pack. They could have done better and it was not Hastings fault.

This book was a death wish for nearly 100 men, women and children who were looking for a shortcut to California in 1846. Save the money and take a greyhound bus.

The book was sent in excellent condition and I am satisfied with my book.
