I tried one of his first books, mindfulness in ain English, and liked it alot. That book helped me understand a lot about myself and my behaviors. After practicing insight meditation, I would feel relieved and less stressed out, but not really "better" more of a how to manual about understanding behaviors. With this book, I feel that I have a complimentary practice with my mindfulness. Metta practice, or practicing, loving kindness to all beings (starting with yourself, then growing your circle to encompass your family and friends. Advanced practice helps you love neutral strangers and people who are challenging in your life. After a few sessions, I would feel a warm and gushy feeling emanating from my chest. After about a week of daily practice (15 minutes - 1 hour), I started feeling pretty good about myself. After two weeks of diligent practice, I noticed little things in my life "falling into place." It's easy to slip back to normal habits, but with some practice, I'm able to practice "equanimity" as challenging situations are arising . If you want to understand reality a bit differently, or just to feel good about yourself as you are now, then buy this book. You'll be a stronger, happier person for it. You might even start attracting positive, kind people into your life. We could all use that.

A most beautiful book on the teachings and practice of Metta-loving Kindness, by an extraordinary

teacher of our time- Bhante Henepola Gunaratana

Loving-kindness (also known as loving-friendliness) is a form of Buddhist meditation. Metta is the practice of feeling and extending love to yourself, to your friends, to your enemies, and to all beings. I first learned about Metta a few months ago and firmly believe that engaging in this practice will make our world a kinder place. This book describes Metta as a practice, including examples from Buddhism and from the author's life. You start the meditation by offering Metta to yourself.

Here's what you say: "May my mind be full with loving-kindness, compassion, appreciate joy, and equanimity. May I be generous. May I be gentle. May I be grateful. May I be relaxed. May I be happy and peaceful. May I be healthy. May my heart become tender. May my words be pleasing to others." The next step is to offer this meditation to people you love, to neutral beings, to difficult people, and to all beings. The author, a Buddhist monk, describes the benefits of loving-kindness. He also provides many examples of practicing loving-kindness from both his life and from Buddha. Although Metta is a Buddhist practice, it can just as easily be seen as a form of prayer or a secular meditation. It is a lovely alternative to the hatred and divisiveness that I see happening in our country.

Wonderful Book

Great simple text on the topic!

Superb!

Not Bhante G's strongest work. This feels more like an edited transcription of various talks. It feels a bit disjointed.

Wonderful, very encouraging!
