DOUG ZANES, ATTORNEY AT LAW, #1 BEST SELLING AUTHOR and CREATOR OF ZANES LAW'S PERSONAL INJURY LEGAL TIPS, a talk show dedicated providing free legal tips and advice on the topic of personal injury. He is a practicing attorney in Arizona and founder of Zanes Law, a Personal Injury Law Firm with offices in Phoenix, Glendale, and Tucson. Doug Zanes entered into personal injury law to bring justice to those in need. "Bad accidents happen and there's nothing anyone can do to change that," he says. "I take pride in the fact that we are willing to start that fight for our clients so that they are completely compensated, and we are willing to take that fight to the end for them." Raised in Douglas, Arizona, Doug completed college at Arizona State University and graduated from law school (juris doctor) from St. Mary's University in Texas. Doug began practicing law in Phoenix in 1997, and has been inducted into the Million Dollar Advocates Forum, which is one of the most prestigious groups of trial lawyers in the United States.

Membership is limited to attorneys who have won verdicts and settlements exceeding \$1 million. Less than 1 percent of U.S. lawyers are members. In 2003, Doug started Zanes Law with his wife, Claudia, in Tucson, Arizona. Claudia, who is not a lawyer, brings marketing and business expertise

that allows Doug to focus on representing the firm's clients to the highest legal standards. Since 2003, Zanes Law has represented thousands and recovered tens of millions of dollars all according to Zanes Law's core values: represent the client well, provide exceptional customer service, maintain a high standard in all aspects, and work as a team to ensure clients' financial well-being. "We're not like most law firms," Doug says. "The case doesn't end when the money gets paid. When you suffer a great injury, everything changes. Your personality changes. Your ability to take care of yourself changes. If you're young, as many of our clients are, your ability to develop and grow up, to be functional and do the things most of us take for granted changes. I'm no different than any of our clients in that I want to know that my family will always be taken care of. That's what drives me - that as long as I get out of bed every day and do what needs to be done, my family is taken care of. I love the fact that I get to help many other people do the same thing for their family at one of the worst times in their lives." You can contact Doug at www.ZanesLaw.com

There is virtually no useful information in this 25 page booklet. It's more of an advertisement for the author's lawfirm than anything else. Waste of money.

Book is not a how to guide. A very quick read, giving you basic information. Book lacks useable detailed information.

This seems to be a promotion piece for a law firm. Gives some basic information, but designed to get you to call and hire their firm. They are probably very capable, but I was really looking for more detailed information. This book is OK, but you'll buy other books to get a better idea of how the process works.

Its a flyer more than anything.....if there was negative stars I'd click it...have more negative things to say but I'll just keep it to myself

Knowledge is power, and Doug has written an excellent guide to help those who are injured in an accident and how to resolve their issues. This read is worth the time of anyone who is having issues in this arena--or not, as it is better to be prepared for what may lie ahead of them. Doug shows again why his law office is most successful in helping his clients in this arena.

As a financial consultant of 22 years, I have personally referred clients to Doug Zanes and have

seen first hand his implementation of his 8 step guide to informing and protecting my clients. This is a must read for anyone who has been injured in an accident. Dealing with the insurance companies and other attorneys can be frightening and costly.

Clear concise steps to help you navigate the system. Doug Zanes has shared great insights that will help anyone looking for the edge in dealing with personal injury cases. He is an expert in the field and has already helped so many. This book will take his expertise to the world!...Amy M.Dublin, Oh

Doug has done an amazing job translating the often confusing "legal-ese" you often find when discussing this type of subject matter into something anyone can understand and more importantly can relate to. His passion and caring for his clients comes through brilliantly. Bravo Mr. Zanes
