Günter Bähler is co-founder of the Swiss Titanic Society and its president since 1998. He has published countless articles for the magazine Titanic Post and other societies and written books on the Swiss passengers and crew. He has thousands of Titanic-related books and photographs.

Being the Titanic nerd that I am, it takes A LOT to impress me any more these days (sounds snobbish but true). This book is by far one of the best books written in a long time about Titanic. I cannot put it down and I know I'll be referencing it for a long time to come. Well written, with facts none stop, and logical assumptions to boot. It is a must read must have for Titanic enthusiasts and researchers. Thought I understood the crew structure, I didn't even know the tip of the ice berg- pun intended. In fact my knowledge perhaps was a chunk of ice in the well deck. BUY!
