Ice Mummy (Step-Into-Reading, Step 4)

Synopsis

Reading paragraphsIn 1991, two tourists hiking in the Alps saw something very odd sticking out of the snow. At first it looked like a doll's head. But it wasn't. It was a man, frozen in the ice for 5,000 years. *Ice Mummy* first published by Random House in 1998 tells the story of this amazing discovery, from the struggle to remove the mummy from his icy grave to the creation of his final resting place: a specially designed refrigeration chamber in his own museum in Bolzano, Italy. Now updated to include shocking new evidence that the Iceman was murdered—shot with an arrow after hand-to-hand combat with an assailant—*Ice Mummy* will provide young readers with more chills than ever! From the Trade Paperback edition.

Book Information

Customer Reviews

In 1991, two tourists hiking in the Alps saw something very odd sticking out of the snow. At first it looked like a doll's head. But it wasn't. It was a man, frozen in the ice for 5,000 years. This is the story of the Ice Mummy, written for the first time in an easy-to-read format. It's also the only book to include information about the Mummy's latest incarnation--as a museum exhibit in Bolzano, Italy. On public view for the first time ever, he now enjoys a few twentieth century comforts, including a specially designed refrigeration chamber that re-creates the icy conditions of the glacier where he

was found! From the Trade Paperback edition.

Mark Dubowski and Cathy East Dubowski are the authors of numerous children's books. They both live in North Carolina. From the Trade Paperback edition.

My sons loved this book. Finds it very interesting without being scary to learn about this discovery of the mummified body. I read parts to my 4 year old as my 8 year old read along on his own. Good book for him to keep at his desk in school during free read because it keeps his interest and is challenging enough. We really like the leveled Step into Reading series.

Fascinating read for intermediate level readers.

My kids loved this book! They have both become very interested in non-fiction and this book is very interesting. This book is the right length that it can be finished in one seating, but still contains a great deal of fun facts. It describes one of the oldest mummies ever discovered and my kids loved that it contained many original, if somewhat gruesome, photos. It is very well written and is ideal for readers in the 2nd-3rd grade level. My kids have read this several times and still talk about it.

Very interesting, informative, and my son loved it! It was a perfect and easy read for my 7yr old who couldn't put the book down.

this book is well written, well paced and about an interesting topic. But it creeped out my 9 1/2 year old son and my 7 1/2 year old twins took his cue and we never finished the book together, though I read it on my own.

My son enjoyed this book and it was just right for his level. A little difficult, but not too hard that he couldn't get through it, and was able to learn from it. This one got him interested in the topic.

Super book -- I learned some things that I didn't know! My daughters love this book - this is the second one that I've purchased after we had tears when the first one was lost at school.

Great non fiction book for my 7 year old Grandson. It is advanced non fiction topic, but with lots of pictures to keep his attention. Typical Step into Reading series style with controlled vocabulary.

Step into Reading does a great job at providing higher level topics at easy reading levels. Many young kids want this kind of content. Price is excellent.
