## Customer Reviews

Horrible translation, looks 99% automated, horribly edited and arranged. I purchased a Kindle version, and it is not worth the \$5 I spent on it. If you are looking for a good Russian-language translation of the same NJ driver's manual, look here: [...]- it took these guys a week to ship, but their product was 100% great - I purchased it for my parents who don't speak English, and it was totally worth it.

Being a Russian speaker and an English-Russian translator myself I realized it's not a perfect translation as in some points comprehension is not that easy but in general it is better than nothing. My husband often required my assistance in order to understand properly but it worked and he

passed the test. Thanks.

Translation is not accurate. There many mistakes there. Eventually I switched back to an English version of the book instead of learning this one.

Information is good, but not really compatible with iPad. Unable to reformat for proper view.
