ok

I returned from a hectic morning of running errands to find a surprise package at my door. You can't imagine how excited I was to see a copy of this little gem of a book "A Little Something" by Roseann Meehan Kermes. I fetched a cup of tea and got settled into my cozy chair by the fire and didn't move until I had been through every page drinking in Roseann's delightful designs. This book is filled with bright colors that inspire a free spirit and endless creativity. I loved seeing the photos of Roseann's personal treasures throughout the book and they have my mind racing with new ideas on how to use some of my vintage finds to organize my sewing notions. The projects have enough intricate detail to interest every experienced sewer but lend a flexibility so they can be scaled down for my youngest grandchild to have fun with. I am putting on a Granny Camp this summer and now I have the perfect ideas for craft and sewing days. Thank you Roseann for writing such a wonderful

book. It will be a permanent addition to my sewing library.

There are over 14 wool projects in this book that are simple, pretty, and fast to stitch. I enjoy the primitive look of many wool artwork, but I just love how Roseann puts a bright, colorful spin on her American Folk Art projects! The end of the book has a section called "Wool-Applique' Essentials" where Roseann provides tips, how-tos, and resources so we can speed through preparation and get to sewing those beauties she created. She also gives us ideas on how to further customize and display our work. Cool! Roseann's choices of colors and textures are amazing. Her work reminds us that we do not have to be master embroiderers to make gorgeous woolly things. I like it! Sometimes, that is all we have time for - a little handmade gift to express our love to family and friends (and which does not require us to spend hours learning a new skill).

What a great collection of colorful little projects that are so functional and pretty. The fabrics are mostly wool but there are a few others mixed in for a touch of surprise. The color isn't just limited to the fabrics the bold colors in the stitching add even more fun without being too fussy. I can't wait to make the strawberry sewing accessories.

Roseann's book could not be cuter if it tried! The projects are charming, the photos delicious and as always instructions and illustrations perfection! GREAT BOOK! A Little Something is calorie free treat to use and enjoy! PamKittyMorning
