Caillou, Potty Time: STEP 1: Potty Training Series (Hand In Hand)

Synopsis

In this delightful story Mommy has a surprise for Caillou: his very own potty! Though initially uninterested, Caillou eventually decides that he wants to be a "big boy" and leave his diapers behind. After several attempts, a few failures, and near misses, Caillou learns to ask for the potty when he needs it and is rewarded with a sense of accomplishment and independence. Written with input from child psychologists, the Hand-in-Hand series of books helps children navigate their way successfully through various key developmental experiences of childhood.

Customer Reviews

"In a sturdy board book format, this is a lovely book to share with toddlers, especially those that are just starting out on their potty journey. Caillou is a well known character that many kids love; he is quite appealing and familiar to youngsters. I like Caillou too, and I like the bright and clear illustrations in this book. The story is simple and follows Caillou's efforts to use his potty, along with a couple of misses. It was nice that the misses weren't a big deal, Caillou was just encouraged to try again next time. I liked the gentle reminders that he would get there. I read Caillou, Potty Time to my two toilet training toddlers, and they loved it. For the rest of the day they told me they were just like Caillou every time they used the potty." --Today We Did Blog

Joceline Sanschagrin is the best-selling author of Caillou: Potty Time, Caillou Helps Mommy, Caillou Puts Away His Toys, and many more. Pierre Brignaud is the illustrator of all the Caillou titles in the Hand in Hand series, Step by Step series and Baby Caillou. They both live in Montreal, Quebec.

Good books Step 1 and Step 2 books go together. Don't buy No More Diapers also as it is the same as book Step 2. I didn't know that.

Geared toward 3 to 6 year olds . Caillou - Potty Time tells the story anyone who has ever had a toddler remembers too well. Trying to teach their child what the p0tty is for and to use it. It is probably one of the few times we will ever have a party celebrating someone going to the bathroom. Caillou is a typical toddler, he wants to please his parents, but it is not as easy as it seems. It will help those in training understand "accidents" happen but with effort and practice it will happen. Just don't forget yourself. Beautiful illustrations by use color to hold the young reader's interest. My rating is 4 1/2 out of 5 stars.

Granddaughter loves this.she is 2 and just interested in potty training. Also loves Caillou. Perfect combo. She rereadsaid this book many times a day.

My son love this book
