Ultimate Seeds Handbook: The Unofficial Minecraft Guide To The World Of Minecraft (Mobs Handbook)

Synopsis

WHAT TO EXPECT...in this BRAND NEW "Minecraft Seeds Package" So why should I use your Minecraft Seeds instead of just playing "vanilla"? Well first of all, these Seeds will help you access some of the most popular worlds, exotic islands, quadruple caverns and incredible scenery in Minecraft with awe-inspiring terrain, and much much more! Each Minecraft seed here is capable of igniting the curiosity and creativity of each player. The brilliant images and screen captures in this book will tap into your natural instinct to explore, discover and build awesome structures, well you might need to dig out some of these close guarded places just to find some of these exotic places which I'm about to share with you here today. "Click to LOOK INSIDE" the book to find out more on what you can Discover by Downloading this book! This Kindle Guide aims to do for you just that. Save you weeks and months of boredom. Not only will you be able to keep this information for your own use, I'll be including some of my personal notes to help you in your quest to show off to your friends your new found seeds and terrain. Have fun and use the knowledge wisely ;)

Customer Reviews

I would recommend this book to minecraft fans that just started playing minecraft but people that have been playing for a long time should look for something more like sophisticated because it has some weird seeds in it for like beginners I mean I liked the book but I was hoping for something a little more

I enjoyed reading this book, and looking at the beautiful screenshots. I noticed that some of the seed codes were mixed up. For example, when I typed in one code I got the code that was on the previous page. If you like breath taking Minecraft/Biome pictures this book is for you, but if you just want the different seeds, I would consider choosing a different book.

I loved the book. and all the awesome seeds. I recommend this book to people who like minecraft.Especially people who like exploring seeds for minecraft.

This book is very useful and this book is very awesome so very very cool. The best mine craft book ever.

A really nice way to find your perfect seed for survival world.

Not ONE of these is working for us! Rip off!

So I love the seeds but there weren't a lot so I haven't tried any yet and I am exited to also Harry Potter is a good book so check that out to

This was a decent read on seeds for minecraft. My only two complaints, wished it had more seeds specially for new players, and wished the pictures were larger (although that could be a kindle limitation or something).
