It is very difficult to find any books on the Bob Marshall Wilderness area and I was pleased to find this one. Gave it as a gift to my husband, as we plan another trip to this beautiful area. Lots of info and history and accompanying photos.

Nicely written book full of beautiful pictures that the Bob Marshall area that only this area could provide! Information on area is factual; makes one want to hike and hike some more!

liked it

This is not a guidebook or trail guide, but once you have hiked into this real wilderness, you will want this book and no other.

A great preview of "The Bob". Very good, concise information in a very readable format. I especially liked the sections on wildlife and history. Makes you want to go to Montana tomorrow and see the country, even if it is January and you hate snow. I can hardly wait for the summer and a visit to the wild country of "The Bob".
