Customer Reviews

Iâ€™m new to wholesaling and this book covered a lot of ground. He used his strategies and methodologies that made me more confident in venturing into this form of investing.

Unfortunately, a lot was missing: sample contracts that we need to use (or how to find them), the links to some of the websites he sent us to are no longer functional, and it wasn't step-by-step. I wouldn't consider this a book for "dummies" considering I'm left with other questions, but I can say it was a good book and I don't regret buying it.

Awesome book on virtual wholesaling. I was highlighting like crazy and that is the defining characteristic of a great book. 5 stars.

This book cut straight to the point and was worth purchasing! I read a lot of books which leave me with a lot of questions this book answered all those questions with answers and references. Bottom line great buy.

This is definitely some extremely good information. It gives you everything that is needed to become the best that you can be in the field. You must continually ingest the strategies, to become a professional. This reading is for serious investors only!

Loved simple and to-the-point style of this book! Very useful and easy to follow advice for a newbie wholesaler! Five stars!

Not enough information, more about the personal side of things, didn't find it as useful.

Mr Flippinghouse, does a great job in explaining the basics of virtual wholesaling. It comes across as a honest assessment of what you need to get off to a good start in virtual wholesaling.

Inspirational and informative guide for those needing down to earth straight answers about this business called Virtual Wholesaling Real Estate.
