South Dakota Atlas & Gazetteer (Delorme Atlas & Gazetteer)

Synopsis

Wouldn't it be nice to always have exactly the right kind of map, whatever your needs may be? You will, with the uniquely versatile DeLorme Atlas & Gazetteer Series. These topographic atlases cover individual states with the most comprehensive detail available, including back roads, backwater lakes and streams, boat ramps, forests, wetlands, trailheads, campgrounds, public lands, prime hunting and fishing spots, and countless landmarks and points of interest. You'll also find a wealth of information on everything from family outings to wilderness adventures. The Atlas & Gazetteer is ideal for outdoor recreation, business travel, home or office reference, and countless other uses.

Customer Reviews

As described and fast delivery service. These maps are always detailed and very helpful in trying to locate specific sites and places that frequently aren't on regular maps.

Love it will be very helpful in our trip to Mt. Rushmore & Crazy Horse...

"The DeLorme South Dakota Atlas and Gazetteer" is an excellent resource for trip planning. South Dakota is a deceptively large state with a lot of wide open spaces and its own rugged terrain. This atlas should allow the average traveler to navigate to pretty much any place on the road network, and to gain a limited appreciation for the terrain along the way. The scale of the map is quite good for such a large state; the numbered and multicolored map sheets are detailed to one inch equals 3.2 miles. The map sheets also include latitude/longitude markings for GPS grids. In addition to a locational gazetteer, this DeLorme Atlas provides general information on recreational opportunities. The listings include federal and state parks, game management areas for hunting; and locations suitable for fishing, hiking, or bicycling. The map scale is not detailed enough to support off-road movement; those travelers planning to do off-road route finding are advised to consult more specialized products. The DeLorme South Dakota Atlas and Gazetteer is very highly recommended for planning and navigating for business or pleasure in South Dakota.

Very thorough except that it does not distinguish between dirt/gravel and paved roads. As a motorcyclist, this distinction is important.

My husband loves these! The detail is great and beyond useful when on the road. Each map breaks down each state into quadrants which makes navigating a whole lot easier.

What a beautiful state. Get out and enjoy mother nature. These maps tell you where she is from boat ramps, camping hiking trails natural features. I could go on and on.

This has come in handy many times as if your familiar with SD you know that the road system away from the major highways is mostly gravel and dirt roads.

I always take these Atlas & Gazetteer books on road trips. We use our GPS as well, but sometimes GPS gives poor advice or detours seem to confuse it. In such cases, we refer to the atlas. Furthermore, I prefer viewing the big picture on a big surface, and, for me, the little GPS screen doesn't suffice.
