I like the musical selection of this series. Good crisp printing and good layout so easy to turn pages by yourself.

We like this series. This book has quite a few songs I think are boring, but it's much thicker than the others, so there are still plenty of good ones.

Intelligent compilation of gorgeous pieces! Many standards, and a few pleasant surprises, included. Very readable, clean edition.

Great book! Many challenging songs, and it comes with a CD!

Great product and quick shipping!! Thank you!

A wonderful and insightful book! I use this with my private piano students to aid them in learning great piano literature and from which musical era the composition came and the CD ...unbelievable!

Excellent collection of piano pieces. This was just what I was looking for. I loved the way the print looked on the white pages - made it easy to read.

My 12 year old daughter has been studying piano for the past 3 years. She completed the 5 levels of Faber's Piano Adventures in that time, and has progressed to Piano Literature Book 4 for late intermediate students. She has enjoyed the classic pieces in this book, and has not had any difficulty mastering them. I am very happy with the Faber method, and appreciate the CD, too that is included in this book. Hearing the mastered pieces played is a big help in inspiration and intoning the pieces. I highly recommend this music book.
