This book puts me to sleep every single time I open it to study. Literally. I have never had a book bore me to death like this one. I hate that I am required to read this for school.

Great need to know info.

Excellent

I needed this book for my transition course into getting my RN. The book was in fine condition & everything was as advertised. Thank you for everything.

The book matched the description and came in very good condition. This is a book needed for my nursing program.

Wow...Very boring. I also love the fact that they say LPN's do not critically think. Prepare to be lobotomized if you have to read this. It truly does suck.
