Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Don't expect to tear pages easily out of this monster. It's bound tight, and the spine is detached so it lays flat well. Looks like it will hold together well. But if you're looking for paper that you can remove and put in a looseleaf... fuggedaboudit. For what it is, it's fine. Just be aware of what it is: a book.

Wow is this book huge. It will keep me busy for years. It is only tab lines, no music lines or chord boxes, but for a guitarist all you need is tabs. Great for writing songs for guitar.

It's great how many pages there are for the price, but the lines are pretty close together, so its hard

to write multiple notes on top of each other

It's a nice book, however it falls apart after some use.

Can't beat the price for how many tab pages you get. The only limitation of this particular book is it doesn't have ridges to rip out the pages neatly.

You'll be amazed how much you begin to improve once you start writing all this stuff down

It is what it is and it works.

It's huge. Probably overkill on my part but at least I'm set for a decade or two.
