Selling Out: A Galactic Empire Space Opera Series (Mercenary Warfare Book 1)

Synopsis

Begin a fun, exciting epic science fiction series that spans an entire galaxy. Selling Out continues the Dragonfire Station universe with Cabot's story. It's all just fun and games unless a profit can be made. Cabot Layne is a trader, through and through. Some might call him a pirate, but he never breaks the law. He only bends it. One thing's for sure--he's certainly no hero. Except a certain BlackOps officer seems to think he is, and sends him off on a mission only a trader can pull off. That only a very good trader can pull off. War is good for business. Cabot's not concerned with the safety of an allied planet, or even the PAC itself--everyone knows guys like him are privateers who only care about themselves. But if he can save the planet and make a profit too...well, that might not hurt his reputation too much. Sometimes a shady guy needs to play good guy. For fans of seat-of-the-pants fun of Guardians of the Galaxy, or the character-driven frontierland of Firefly, this epic science fiction series is a satisfying, page-turning read. Customer Reviews

A spinoff from the Dragonfire series it interweaves the some characters and situations and gives more outlook on the people associated with Dragonfire and the troubles they face. We find those that are not military will also be in the fight and have to handle things in their own way and because they care for the people of Dragonfire and the PAC. Thanks Zen!

The story moved right along and was quite entertaining. I appreciated the dilemma the main character was faced with, many of us have the same problem at times. I will be looking for a follow up to this story line for I did enjoy this one enough to continue.

Loved it! Love Cabot and Arlen and Omar and Nagali and Brak and Gretch and -- well, you get the picture. Great writing, great plot, great characters! On to Blood Money!

I've been a fan of Zen DiPietro for several years, having read her works in an anthology or two as well as her Dragonfire Series and short stories. This story is another great continuation of her charm shining through as a writer as she sends us traveling in space 'Zen Style'. I.E. - more character building than some Space Operas, less battles. Right up my alley. As an aside - look for her newsletters and get on her mailing list. That way you can get updates as soon as new books come out! Sometimes, she even shares things such as her craftiness inclinations of being a Space Writing Author AND Mother! Highly Recommended! Peace!

I just finished read Selling Out by Zen DiPietro. WOW! What an awesome book! It was nothing like I was expecting. I know anything I read from Zen DePietro is going to be really good, but Selling Out was beyond my expectations! The only downside I have is that I ran out of book before I was done reading!!!! I wanted to keep reading! If you want to have your imagination taken on a totally awesome adventure, then definitely read Selling Out by Zen DiPietro!

No there are no superheroes with fantastic powers in this book. This is a book of seemingly ordinary people doing the right thing. People with flaws, and histories that try to overcome their mistakes and

differences. It would be fantastic if we could exhibit the same characteristics, forgiveness, tolerance, love for others that are unlike ourselves.

I have truly enjoyed this series and all the Dragonfire characters. It's like seeing the story of that slice of the universe in different perspectives.

A great spin-off/continuation of the Dragonfire series. Zen has done it again. Using familiar characters and introducing new ones brings a fresh perspective to the Dragonfire world. Zen's writing is excellent as usual and the adventure continues! I am already awaiting the next installment. You will not be disappointed.
