CEN Review Manual (ENA, CEN Review Manual)

Synopsis

The fourth edition of the CEN Review Manual contains valuable tools to enhance your preparation for the CEN® examination. Five chapters in the book contain a simulated test consisting of 150 questions. In addition, access to two computerized web-based tests of 175 questions each are provided. This feature will allow the learner to practice taking the CEN exam in the same environment as the actual CEN exam. The learner will be provided with a rationale and a reference for the questions missed on the web-based exam. This edition has been carefully constructed to contain the same proportion of items in each content category as the CEN examination. Your score will clearly indicate any subject area in which you would benefit with further study whether the learner utilizes the book exams or the web-based exams.

I passed and this was all I used to study.

Great book. many tests and rationales which help assist in studying. its hard to know everything about ER nursing and this book hits everything right on the nose

Book is great- however I recommend buying directly from ENA. Cheaper... and no marks... halfway through reading I discovered marks and writings all over this book...

The rationales were extremely helpful. I did attend a Jeff Solheim review as well to help me prepare

The practice tests were very helpful! This book was able to show which areas I was weak in so I could focus on studying those. ...and I passed my test!

Awesome, out of 3 books I have purchased , this was the absolute best, questions and rationales, I learned so much from this book, I suggest it to anyone,

Couldn't have passed with out the book. it's much better then any other manual I've come across .a must have to pass.

Good test prep
