# Life Cycles: Your Emotional Journey To Freedom And Happiness

## Synopsis

The book that's all about YOU, your emotions, and this turbulent world in which you must now find your way. Since our world changed so suddenly on September 11th, and with subsequent events still unfolding, Christine DeLorey's LIFE CYCLES Your Emotional Journey To Freedom And Happiness, has taken on a new and illuminating relevance. Through her profound knowledge of numerology, Christine speaks of the new millennium as a cycle of time in which real and lasting peace can only come from understanding and healing our emotions. This, she explains, holds the same importance as understanding and healing the mind, body, and spirit. With an emphasis on finding our way to peace, her 22 years of research have resulted in this unique and groundbreaking book which addresses the chaotic and emotional times in which we are now living - and the part we are all playing in determining the direction humanity is about to take. (See Part 3 - LIFE, LOVE & LIBERTY IN THE NEW MILLENNIUM) She also describes, explicitly, how your personal numerology cycles influence your emotions, relationships, career, money, health, security and your awareness of today's realities. This extraordinary book is your personal month-by-month, year-by-year roadmap to whatever the future brings. (See Part 1 - DESTINY NUMBERS and PART 2 - YOUR JOURNEY)

Took me a while to discover this book. Strange! Why isn't it OUT THERE like other books like Mr. Hans Decoz's etc. The author has done a marvellous job. Every page just pins you down to the book. You have to read EVERYTHING about your numbers and then it strikes to you to read about your close ones as well. And boy, is that ACCURATE!! I have been reading Numerology since the age of 17 and been a practising astrologer too. The book validates a lot of my insights on time patterns and happenings. Makes it lot easier for me to predict a lot of things that are going to arrive in the near future. As they say, "Timing is everything". Grab this book, understand your life patterns and pay close attention that what has happened in the past and what phase you are going through at present and where you are headed to. Will really help! Highly recommended.

The book is based on numerology but it's not about what numerology is or how it works. It's about where you were, where you are now, and where you are heading. The description of your emotional journey is so accurate that it's sometimes creepy - in a good way. What is revealed here can be, of course, taken in a subjective manner. But that's part of the process. What speaks to you, what you perceive as important at this point of your life, what you want to work on, all depends on where you are in your life. The book is written in a monthly calendar style, so you can use it for the rest of your life. And by the time you come back to the same month in 9 years (because you go through cycles of 9), you may be reading the same section, but I bet you are working on a different topic, struggle, task, etc. that is of importance at that time of your life. I read it at the beginning of every month to see what I want to work on and pay attention to. It's about your personal growth and, like the title says, about your emotional journey to freedom and Happiness. There are tons of hints and information in this book. What you do with it is up to you. Keep an open mind, for you will benefit more that way. Good luck with your journey.

I started reading this book last night and just couldn't stop. Very capturing and oh so true!! love the detailed description on how you cycle through those 9 year cycles and can't believe how accurate these forecasts are. Even when I look back at my last completed 9 year cycle, it's just amazing how on point the author is with all the events, changes and opportunities to grow come with a 1,2,3,4 etc. life cycle. Great book for everybody that wants to learn a little more about themselves.

I find this book to be such a good tool for self-analysis and working through hurts from the past. It gives you a different lens to see yourself, your situation, and the world around you through. That new vantage point is very helpful for learning how to let go of things that no longer are useful to your growth and seeing strengths you didn't know you had or that the people around you have. Very cool resource! DeLorey's website is also great: [...]

I have used this book for close to 15 years and recommended it to many. I was thrilled to be able to download it and have it with me wherever I go.

Best numerology book out there! I've purchased this book for myself twice as it was so worn down plus for all my friends. Must have for all those Numerology lovers!

She makes sense of the energy of the current chaotic times and how helping ourself. In turn, contribute to healing the earth and humanity. Loved it!
