Unholy Alliance: The Agenda Iran, Russia, And Jihadists Share For Conquering The World

Synopsis

The New York Times best-selling author of *Rise of ISIS* exposes the dangers of radical Islam and the effects it has on the American way of life in this informative and eye-opening new book. The fundamental principle of our system of government is individual liberty. Our forefathers chose to bequeath a system that limited the reach of government officials so that Americans could control their own lives. When the United States was attacked on September 11, 2001, the true face of radical Islam was exposed for the world to see. Our nation came face-to-face with a rabid ideology that was - and is - committed to destroying our freedoms and imposing Islamic Shariah onto the Western world. The principles of Shariah, which demands total submission to Allah, completely clash with US law and legal tradition. But that doesn't stop adherents of fundamental Islam from executing those whom they believe have offended Islam and Muhammad. As such, Shariah has become a threatening danger to our country, our values, and our way of life. In *Unholy Alliance*, Jay Sekulow and the American Center for Law and Justice (ACLJ) tackle radical Islam head on. They expose the attempts by fundamentalist Muslims - both in the US and abroad - to destroy our legal system in favor of a system that would destroy our essential liberties. They bring attention to terrorism in today's world and reflect on the recent Paris and San Bernadino attacks as well as Russia, Syria, Iran, and continuous threats to our nation. Each of us should be aware of what is going in the world and learn what we can do as individuals to protect and defend the Constitution against all enemies, be they foreign or domestic.

An excellent analysis of the current global chess match. I don't believe there is a more timely book on the market, as the narrative addressed in this book unfolds daily in the newspapers.

I'm sitting here reading this book now and it's the best background primer you can get on what is happening in today's news, what caused it, and what we can do about it. Any candidate for office would be well-advised to study it carefully for a deeper understanding of his or her own responsibilities. Amply footnoted, it withstands the critique of the skeptic and the praise of the patriot. I bought it for my family and sent it to my friends as a must read for such a time as this.

Jay Sekulow has had great insight to world affairs for years. I've been a fan for over 10. Great book to share with my kids, educational, insightful, thought provoking. Thank you Jay Sekulow -again!

An eye opening walk through current events. You won't regret reading this, I couldn't put it down. We need to wake up America!

A book we all need to read...actually, Syria's use of chemical warfare is probably opening the door to the beginning of WWIII. Iran wants to destroy the Israel nation, while Russia is providing Iranians the means to do it. Syria is a threat to begin the horrific journey this world seems to be heading to. We have had our eyes on the Arab nations and their desire to have nuclear power, that we have taken the focus off China and Korea....very scary. I hope we are not starting a nuclear countdown. Better start praying.

The book is a good history of the development of the Middle East and why we are in the threat that now exists. It also addresses the difficulty of co-mingling of the Christian and the Islam faiths in a country. I recommend it to any serious student of history and religion. Laurence Chipman

Very happy with this purchase. Jay Sekulow has once again hit the proverbial nail on the head! A great read!
