How To Start A Landscaping Business: Without ANY Startup Money

Synopsis

Are you sick and tired of working in a dead-end job for someone else? aka being someone else's bitch! Sick of barely making enough to pay the bills? aka broke-ass Sick of fighting with your significant other over money? Sick of running your ass off like a slave for peanuts? Sick of being bitched at for having to use the bathroom? I could go on and on and on. But... You want to start your own damn landscaping company! But... Don't have the money to get started. But... You Don't know how to get started. But... You're terrified of failing and losing everything? But... Your spouse is attacking you and everyone around you is either stupid... negative... or holding you back.. But... But... But... See? Then this book is your solution.

Customer Reviews

This book will tell you NOTHING about how to start a landscaping business. The disclaimer in the back of the book even says as much. It's his story minus anything that you could actually use. Its

supposed to be a book to motivate but falls short. It's full of typos and the sentences are spaced out in a way that is really jarring to anyone that is used to standard paragraph format. If the book was in traditional paragraph format it would be about 1/4 The length, I mean there's not even page numbers and chapters are half a page to two pages. So again DO NOT BUY THIS BOOK! Watch his videos but leave the book alone.

I found that Keith's YouTube videos were much more useful than the book. At least Keith took some kind of steps to get his thoughts in print.

Poorly written book grammar errors no structure or flow. If you have a jr high level education this book would probably be great for you. Content is sub par at best.

Hard to read because it is all spaced out really wired and huge font. Was obvious he took a 40 page book and made it into like 80 pages. 8 pages was just for thank you's. Great info but can all be found on his your tube channels. Great guy, great info but skip this and just watch his videos. This book is 90% just inspiration and not good info that's on his YouTube.

The book is a very motivational book in which he shares real life experience about how he did it. It is not a book full of technical information about the legal side of it or the financial side but is a book about what you will probably face and how he got through it. You can tell this book wasn't written by someone who is just an analyst with no real world experience. You can feel the passion he has for his family, business, and you the reader from cover to cover.

DO NOT PURCHASE THIS BOOK! I figured at 70 or so pages long that this would be a quick read and would most likely cover just a few of the basics associated with starting a lawn care company. I wasn't expecting much for \$4. Let me tell you, I feel like I wasted \$4. I wouldn't call this a book, more like a pamphlet..... The first 36% of the pamphlet (based on the kindle telling me how far i had read) was some nonsense about how I need to do this for me, stop listening to the naysayers and get up and make a business. NOTHING THAT HAD TO DO WITH RUNNING A LAWN COMPANY. The book has more grammatical errors than a 8 year old school paper, not to mention that his use of swears and street language makes me feel like he wrote this for his boys on the corner. I strongly recommend if you are serious about pursuing a lawn care business, to use Google and explore the many reads online. How someone can put such thrown together garbage on the internet and call it a

book blows my mind. If there was any way I could get my money back I would, but I would rather make sure that no one else spends their hard earned money on this crap.

Good short story and true. But he talks about the same stuff on his youtube channel. Keith Kalfus is the man

It was very helpful
