# Arab Winter Comes To America: The Truth About The War We're In

## **Synopsis**

When the bombs went off at the Boston Marathon, it was a stark sign that the Arab Spring had arrived in America. Clearly, the unrest and instability sweeping across the Middle East - from Egypt to Syria - can no longer be ignored as a problem "over there." Bestselling author and jihad expert Robert Spencer unveils the shocking truth behind the mainstream media's propaganda about the Arab Spring and shows how the Fort Hood attack, the Boston Marathon bombings, and other violent acts by Muslims in the United States are indeed fresh instances of the Arab Spring ideology coming to this country. Robert Spencer brings years of study on radical Islam to this shocking and insightful book. *Arab Winter Comes to America* is a powerful warning of the terror and tyranny to come.

## **Customer Reviews**

This book is a stand up call to Americans that the truth of the religion of Islam is In its own words and it should be made public so that all know what it really says NOT what CAIR or the other Islamic organisations that in one way or another is connected to the Middle East and the terrorist organizations. If we don't start calling a carrot a carrot their lies about a peaceful religion will make us gag and no real truth will be able to be spoken. Yes there are millions of peaceful Muslims that's because they do not follow the Quad literally BUT if they did they would be terrorist fighting jihad on the streets of America. Know the truth and it will set you free. Hide under the covers for dear fear of being called an "islamaphobe" and hide you will and not by choice. There is no other religion that preaches jihad as does the Quran. Peace living Muslims exist everywhere and they should be

protected so they can practice their faith just as you and me BUT the truth of the history of Muhammad and Islam needs to be brought into the light of day

Mr. Spencer has written a very informative book. People need to read this because the extremists are coming. Forget global warming. The administration is denying how dangerous these muslim extremists are. That's why Mr. Spencer no longer works for the government. How stupid can the Obama administration be.

Onward World Soldiers. Fighting to save the World from sharia and muslem control. Keep on writing and watch your neck they are everywhere.

Anything written by Robert Spencer should be required reading. You will not learn the truth about Islam unless you read Robert Spencer.

In 2012, before the entire UN General Assembly, the speaker intoned, "The future must not belong to those who slander the prophet of Islam, (Muhammad)." The same man, in 2009, stated in Cairo, "I consider it part of my duty as president of the United States to fight against negative stereotypes of Islam wherever they appear." Yes, these quotes, amongst other shocking words, came from none other than America's president, Barack Hussein Obama. As author Robert Spencer so quickly points out, "(Obama) didn't explain where in the Constitution he had found this awesome new responsibility." We'd love to know that, too, Barack!In this exhaustively researched, yet easily-read book, Mr. Spencer details the very real, present-day threats to the West's security and America's Constitutional freedoms. The author shows that these threats, at the hands of radical Islam, stretch as far back as the Clinton and both Bush eras. However, radical Islam has become wildly successful in its evil aims during the Obama Regime because of the president's utter failure to act; fiddling while the Middle East and North Africa burn. "Arab Winter" isn't mere Muslim-bashing here, nor fear-mongering, either. Each issue is backed up with pure facts, period.No, Mr. Spencer makes no claim that Obama is a Muslim, but one immediately understands that Obama sympathizes with Muslims and their causes. This is easily demonstrated by several instances in the book, such as Obama's full backing of the OIC's proposal to the UN which would ban public criticism of Islam as "hate speech". If this resolution were to pass and be enforced, it would trump America's free speech rights. (Note that Muslim countries make up the United Nations' largest voting bloc.) it becomes obvious when reading this book that Obama simply doesn't understand that radical Muslims are a

threat to America, its interests, or allies. Try telling that to Israel, or to the wider, civilized, non-Muslim world. Mr. Obama, try claiming that Islam is no threat to the victims of Nidal Hasan, (the Ft. Hood shooter), to the families whose men were beheaded by ISIS this month, or to anyone who lost loved ones on each one of our "Nine-Elevens"! You'll also learn in this book that, in February, 2012, under pressure from Hamas-backed groups such as CAIR, (Council for American-Islamic Relations), Obama and Eric Holder insanely purged more than a thousand documents and presentations from all counter-terrorism training materials linking Islam to terrorism. I know... You're thinking, "They did WHAT?" So did I. Now, not a single counter-terrorism course, or manual, even \*mentions\* Islam. In Obama/Holder's politically-correct world, that's an absolute no-no! Yeah, I know. Ridiculous, but 100% true! Obama and Holder also reduced the twenty-three year prison sentence of a convicted al-Qaeda financier, Almoudi Abdulrahman, by six years, without stating why. Almoudi had admitted to his role in this Muslim Brotherhood-backed group. You'll recall that Obama gave the Muslim Brotherhood \$1.5 billion taxpayer dollars after he personally invited this known terrorist group to the White House. Would President Harry Truman have gleefully invited Adolf Hitler to the White House, then handed him a huge donation check? No? Well, given that the Muslim Brotherhood wants to wipe Israel off the face of the Earth, murder every Jew on this planet, and force the Qu'ran and Shariah Law upon America, then Obama has done the equivalent! Obama has also appointed Muslims to head both the Department of Homeland Security \*and\* the FBI. Not good! Perhaps the biggest problem facing America today, says Mr. Spencer, is of our own doing. I absolutely agree, because I've witnessed it myself. In Robert Spencer's well-chosen words, he states, "Th(e) enemy is the entrenched culture of self-hatred that denigrates anything and everything American and exalts the most inveterate America-haters as heroic underdogs struggling valiantly against a brutal and blind behemoth." One twenty-something kid I know said that what Islamists did on 9-11-01 "is no worse than what Americans have done to Muslim countries." (Not true in the least, but that's exactly the problem!) As Mr. Spencer points out, American students aren't being told the whole truth about Islamic radicals. I myself find that in my kids' schools, history classes are no longer taught, or taught from a Far-Left point of view. That is nothing short of shameful. We parents MUST look into exactly which U.S. History and Social Studies textbooks are being used in your local public schools. Are these books full of Obama-approved, far-left garbage? Organize with other parents and meet with your school board. Chances are, they're not even aware of this Leftist hoodwinking, and will work with you to effect a balanced-worldview textbook change. This nation's greatness has been earned and is worth preserving. That, I believe, is Mr. Spencer's ultimate point, as well as my own. As of this writing, (August, 2014), the entire Middle

East is literally collapsing under the weight of ISIS, an ultra-radical Islamic caliphate "nation" that has been created right under Obama's nose. Illegals are pouring into our country's southern borders, some 60,000 and counting. Obama's reaction? Even more golf and fund-raising trips! In Obama's world, "leaders-from-behind", such as himself, aren't born. They're made...to ignore the world, fiddling while it burns!

If one wants to understand the hate and the terror from those killing Jews and Christians please read this book. I highly recommend books written by Robert Spencer.

Robert Spencer is the best ! Everyone should read this book, and get multiple ones to give as gifts to friends .

Robert has done it once again, clear and concise.
