Customer Reviews

If you are the type of person that does not like change, you do not want to read this book. Jerry has written a very engaging and persuasive book that will make the even most reclusive hermit want to buy an RV and hit the open road. There is plenty of helpful facts and analysis, but also personal experiences of people who are making their RV dream come true. The best thing about Jerry's book is it is real, unlike a lot of books on Kindle nowadays, it is not a farmed out bogus book, data mined by a poorly paid ghost writer in a foreign country to make a book thrown together with a fancy cover to try and fool the Kindle readers. The book is written by someone who was a computer engineer and has a lot of focus and analysis he can bring to writing about his RV experience and write it in a clear, easy to read and compelling fashion.

As my spouse and I get closer to our Full Time RV Date (May 2016) this book helped alleviate any fears or feelings I had of selling all of my stuff, giving up a 20 year career and embarking on this adventure. I learned a LOT reading this book, and his suggestions for making money on the road are great. Simple things I had not thought about, such as RV security are addressed. There is also helpful links and other books mentioned that I jotted down to view and buy! Thanks Jerry!~Kate in Canada

This is a practical informative first book for any age person who is considering an RV life style. Just about every aspect of RV living is covered with tips and pointers on how to proceed. Where space does not permit long detailed descriptions, links are given to applicable internet sites. There were many suggestions that even if one does not jump into the RV lifestyle will find useful. Buy it for the RV stuff, keep it for all the great ideas.

I'm only about 1/3 the way through this but I'm very impressed with it and I'll keep it handy as a good reference and resource. Easy reading and well organized. I'll give it a must buy for any RVer. I look forward to other books by the author.

I really enjoyed reading this book! I found it to be very informative as the SO and I get closer to making the leap to full timing. Since we are 42 & 35 years old I was especially interested in the information Mr. Minchey included in his book about making a living on the road. Definitely recommend this book to anyone thinking about leaving the 9 to 5 rat race!

I'm closing in on 50 an want to live this lifestyle for a few yrs before I'm to old . This book has plenty of great ideas for living affordably an finding work on the road . Very well written an helpful .

I purchased this book to have on my Kindle Reader. We have a Class B motorhome and I really enjoy reading about the "ins" and "outs" of RVing around our beautiful country! Thanks for providing this book at a price I could not turn down as I have to watch my budget very carefully!

A book full of great information! I enjoyed the links to other sites and blogs. We currently live in our RV full time and love it. We have jobs in Maine and Florida that we go back and forth to. In four more years the husband can retire and we plan to travel and see more of the USA. Thanks Jerry for putting this book together!
