Confessions Of An Illuminati, Volume I: The Whole Truth About The Illuminati And The New World Order

Synopsis

In English for the first time, a guide to the true secret structure of the Illuminati and their invisible network – Author Leo Lyon Zagami uses the Illuminati's internal documents and reveals confidential and top-secret events. His book contends that the presence of numerous Illuminati brotherhoods and secret societies – just as those inside the most prestigious U.S. universities such as Yale or Harvard – have always been guides to the occult. From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes the hidden structure of the New World Order and the occult practices of the various groups involved with it, including their connections to the intelligence community and the infamous Ur-Lodges.

“Leo Zagami tackles with courage and determination the difficult theme of secret societies and in particular the Western initiatic system, offering an avalanche of historical detail and valuable information. A titanic work, full of clarity and realism, indispensable for anyone who wants to understand thoroughly the occult scenario unknown to most people, but also an enlightening guide to better cope with a world that is about to change radically in the delicate inscrutable relationship between earthly power and other unworldly powers.” –Varo Venturi, film director, 6 days on Earth

Critique: A scattering of black-and-white photographs illustrates this astonishing glimpse into the power structures and occult practices of notorious secret societies, including their connections to metaphysical pioneer Aleister Crowley, hostile extraterrestrial lifeforms, the intelligence community, and more. But how can ordinary people take a stand against vested interests of money and power? Knowledge is the first step, and even the most skeptical browser will find Confessions of an Illuminati modus operandi expose enlightening!"

— Midwest Book Review

Leo Lyon Zagami is a writer and researcher who wrote a popular blog between 2006 and 2008 concerning his direct involvement with the New World Order and secret societies connected to it. He is the author of numerous books in his native Italian and is the author of Pope Francis: The Last Pope?: Money, Masons and Occultism in the Decline of the Catholic Church.

I read the other two ratings of this book and have to say I found them curious. "Humorous" I honestly don't know what that person is referring to as this book was anything but funny! Zagami was the ultimate insider of the Illuminati/NWO/Masons. What he is truly risking his life to inform the public of the global danger we all exist in from these diabolical forces is monstrous. More people are slowing becoming aware that the utopia that Bush I originally opined about in his tribute to the New World Order is the height of evil posing as good. This book takes the reader to places and people that have, up till now, remained hidden in the dark cabals of the Bilderberg Group, Tri-Lateral Commission, Masonic elite as well as the powerful people who comprise the Illuminati. Mr. Zagami's exposure of their plans, interestingly in league with Pope Francis and his crusade to create a One World Religion, are shown to be partners in nothing less than ultimate evil posed to overtake humanity by their stated goal of 2020. I have been an avid reader of the global cabal and its Orwellian agenda for many decades. I have a library of the best writers of who expose this deeply evil system; Dr. Joseph Farrell, Jim Marrs, Texe Marrs and many others whose books were invaluable in discerning the times and dangers we live, but none come close to the shocking expose in this matchless book! Read this volume, then look at the managed news and see for yourself how

the nation is being lead down the evil path by the willing servants of the NWO, in every aspect of our nation from the Oval Office to the Congress to the pseudo news that are in combination leading us to an Orwellian cataclysm of unseen proportions. A book that, if read by people, could help stem this tsunami of terror approaching our nation and world.

Illuminati=enlightened or illuminated...where the ends justify the means.. lies ,deceit, theft ,murder, or war.A secret society called the Illuminati began on May 1, 1776 in Germany under the leadership of Adam Weishaupt, and other elites, to create a dominion of influence over the world's masses, Many incarnations of the Illuminati have evolved and include infiltration of Freemasonry by "Jesuits" leaving behind "the trail of the serpent". Weishaupt was a Jesuit student of religious bigotry and was described by some as "a human devil".As a four decades long 3rd degree Master Mason myself, I know that today's Freemasons have nothing to hide except the secret handshake and Shriners' Children's hospitals. The book's author himself is a 33degree Freemason.As we fast forward to page 325 of Zagami's 348 page tome we read "The Illuminati network...are currently promoting Islamic terrorism... refugee invasion of Europe (as planned)...the Industrial-military complex continued expansion.On Jan17, 1961 in his farewell address, President Dwight David Eisenhower stated.. we must guard against.. the military-industrial complex.. Eisenhower's great-granddaughter, Laura Magdalene Eisenhower, stated:... "our children currently have no future... but to live in enslaved society."Any reader who finishes this book with no fear for the future is a fool.

I just finished reading Leo Zagami's Confessions of an Illuminati Vol 1. I went into the book knowing very little about the structures of secret societies and freemasonry, and I have left with an abundant amount of knowledge. The book is packed with never before revealed information that directly coincides with what is happening now. Although it is a serious book, I laughed out loud many times ...Zagami has a great sense of humor when retelling the history of some of these characters, in particular Aleister Crowley. I think every person on this planet can gain something from the knowledge disclosed in this book...and we all should really get to know thy enemy....the NWO is here to stay unless we all do something about it. I feel truly illuminated and have just pre-ordered Vol 2. An excellent book what more can I say? I am an avid reader and highly recommend this book!!

I heard Leo Zagami on Coast to Coast when he was interviewed. He did none of the hollering that some guests do when they try to put their point of view across. Because of how well he presented

his subject I had to get this book although I'm not in the habit of ordering books after listening to someone's interview on radio. There is a tendency I would guess for most of us to believe only a fraction of what we read or hear. How can anyone think that our news programs aren't sanitized? Factor in the propaganda indoctrination we received in certain subjects in school. This is the kind of cynicism most of us I suppose would approach any kind of work of non-fiction. So far, this book is full of quotes and appears to be very well researched. I was interested in what occult beliefs go on behind the scenes with some of the government agencies of this world and what creature(s) are responsible for the horrifying decisions that have caused most of humanity so much grief. It has to be something powerful enough to involve many generations. I wonder how early this starts? Is there an initiation process in such schools as Gordonstoun? The Masonic Order is a thread that runs through this book. (I happen to like the few Masons I know, but are they ever secretive about certain things!) There is the thought that only certain few families seem to reap the rewards of conflict. Sure, they send the token family member to the front line, making sure to 'leak' it in the media so that they are deemed high risk and have to be called back home. Rock their boat and end up dead, or evidence is destroyed in a spectacular manner. With the usual misinformation babble the media tries to force feed us, while at the same time making it work for their benefit by a call to arms. The fact that I'm only part of the way through proves that this book is very thought provoking. Shocking in some places because I'm not as well read on this subject as the other reviewers. I think my eyes are about to be opened.
