Customer Reviews

Purchased to make pillow cases for a slumber party. Each book comes with 6 stencils. Each stencil page is a little smaller than 4x6 and the stencil design fills up the whole page. The alphabet book has 4 letters on each stencil. Each book had perforation that had been removed completely. Was impressed with all books except the alphabet and butterfly which were both too basic. Good buy overall. Looks like it will last for more than 1 use, but not long term.

Used this for a Onesie and Bib station at a baby shower and they were a hit. Easy to use and the perfect size. There are 6 stencils in each booklet, they're perforated so you can take the booklet apart. The size of the stencil is about the size of a 4x6 pic and was the right size for our project. They are a coated card type material but were very durable as they were used by many people,

many times. Would definitely purchase them and use them again.

The stencils were not as detailed as I hoped and were not printed squarely on the cards so it took a little work to get them straight on my projects. However, the coated cardboard holds up well to many, many prints. I will be able to use these for several different projects for months to come.

These are great stencils if you are looking for flowers to place on anything. I made my wife a few butterfly houses and then i used these stencils on the sides on the houses to give it so more character. They are very easy to use and made of durable material. I like that you can remove the flower that you want to use from the book and use that one. Flowers look just like it shows on the front picture.

I spent almost 1/2 a day going from craft store to craft store looking for stencils--I design silk scarves.I could find none that held eye appeal.Discouraged I came home, and decided to try . I saw the different booklets of stencils--was concerned the design would not be large enough for what I had in mind. But, my choices were quite limited So I ordered several books of the stencils.I am delighted at the quality, and designs. One happy customer in Ohio,MysticSilks
