Shipping Weight: 2.4 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 23 customer reviews

Best Sellers Rank: #304,364 in Books (See Top 100 in Books) #168 in [Books > Children's Books > Geography & Cultures > Cultural Studies > General](#) #506 in [Books > Children's Books > Literature & Fiction > Chapter Books & Readers > Intermediate Readers](#) #7613 in [Books > Politics & Social Sciences > Sociology](#)

## Customer Reviews

We Live Together (Mcgraw-Hill Social Studies) Grade 2 Textbook

I'm using this with my 2nd grader in the fall for home schooling. I researched many programs and I really love the simplicity of this book. I love that she can read and understand the entire text and I can guide her and give her projects to go along with it. I found the workbook and a whole project kit with teachers manual on ebay to accompany the text! This is a great program for second grade history. I know allot of home schooling parents are not so fond of using public school text books but if you add your own projects and add to the lessons they can really be a great and inexpensive resource!UPDATE: We're into our year of home schooling and this is my daughters favorite book! She gets so excited to tell everyone what she has learned from it. My five year old loves to sit and listen to her read the stories in the book. I highly recommend getting the workbook. It is simple but it reinforces what the child reads.

I purchased this book for my homeschooled kindergartener and first grader. It has very basic concepts which was ok for kindergartener but not nearly advanced enough for my first grader. It

does contain questions and reviews through out the units. It has pictures and illustrations that can hold your child's attention. I would recommend this for a kindergarten level or a first grade level if you are looking to touch on concepts with out going into depth.

Total waste of money. I'm a homeschooler and my child is 6...this was ridiculously and doesn't embark "knowledge"....I ended up not using it. We switched over to using historical bios and the library.

as described

I wanted to buy a textbook having a unit of Community, to supplement my 2nd grade lesson planning. This book has it and covers most information I needed.

My son dislike fiction so I bought this for his daily reading. He loves it and we are almost halfway through the book. The illustrations are great.

This is a great text book. I homeschool my kids (ages 7, 6 & 4), and each of them were able to follow this book very well. There are suggested activities at the end of each chapter too! I would definitely recommend this book.

I am very happy with this book. It is introducing new words for my new reader. I like the length of the lessons and the lively pictures. Basic information every child should know.
