Customer Reviews

I really like to play on my electronic piano, and these books with just one big note and a chord indication are perfect for my needs. I know notes, and cords so these books are great!!

this is good for beginners,

I wasn't sure what it meant that I was ordering a book in the Hal Leonard series. It turns out that it is just a series of melody notes, each written large with the name of the note inside the notehead. The lyrics are shown, as are indications of the chords. Unfortunately this book is too easy for anyone over the age of three. Won't be buying any more Hal Leonard.

ok

As a retired RN, I really enjoy these EZ Play books. I had 4 years of classical piano training, educational, but for me, not enjoyable. I play chords with left hand & melody on right on my Yamaha
