Average Customer Review: 4.5 out of 5 stars 13 customer reviews

Best Sellers Rank: #1,659,468 in Books (See Top 100 in Books) #19 in [Books > Reference > Writing, Research & Publishing Guides > Publishing & Books > Bibliographies & Indexes > Politics](#) #167 in [Books > Reference > Writing, Research & Publishing Guides > Publishing & Books > Bibliographies & Indexes > History](#) #1485 in [Books > History > Military > Vehicles](#)

## Customer Reviews

On the afternoon of June 6, 1944 my father drove a 2 1/2 ton truck onto Omaha Beach. Most of the intense fighting had been in the morning. Nonetheless, a bullet crashed through one of Dodge's windshields. It missed him by inches. Had the shooter been a better shot, I couldn't be writing this review now. Thomas Berndt put together a great reference for those who collect or just want to know about military vehicles of WWII or Korea up to 1960. Hundreds of B&W photographs with descriptions put you in the driver's seat. Incredible detail allows you to know even the tools each vehicle was delivered with. Assembled in chronological order, you can skip back and forth to bone up on your favorites. I liked this a lot.

Not what I was looking for but still it was as promised

Everything is as described

Nicely done with a great number of good detail pictures.

great book

This book is a very good reference for military vehicles of the period. I have several other MV books but I always turn to this one because of its layout and decent photos. The photos are very good and the descriptions concise and brief. The only negatives I can think of are that the prices are slightly out of date from my experience and sometimes too many models are grouped together.

Love the Book. Recommend very high to anyone to buy and read and read over and over again.

ok
