Written before the 'Age of dumbing kids books down' started! In this book, we learn: What a Giant Dump Truck is \* Its uses \* Inside the cab \* Parts \* Where in the world? \* Special Facts & Words to remember. Each page has at least one photo of a giant dump truck in action. I absolutely LOVE the way it teaches some geography too, showing a world map and telling you where in the world you can find one of these big machines. In this book it tells you about: Northern Siberia, France, Australia, Scotland, West Africa, Thailand, U.S.A. and Colombia. In the facts you learn how much fuel it can hold, how much one weighs, and how fast it can go from the smallest to the largest. I originally found this set of books, Big Yellow Machines (Giant Dump Trucks, Bulldozers, Motor Graders and Excavators), in our local library and was SO impressed that I had to purchase them all! When I got them first I had wanted them for our preschooler but upon reading them I realized that although he would enjoy looking at the pictures now there was WAY too much information in there for him at this time. The age recommendation of 7, is good for these books & I think even older

children (8-10) would learn from them too. HIGHLY RECOMMENDED from our house to yours!

Our two-year-old son can't get enough of Giant Dump Trucks. He wants to read the book over and over. It has great pictures of giant dump trucks at work in quarries and in open pit mines. Our son is an expert on these trucks now.
