Medicine Hands Therapists Workbook And Journal: Activities To Deepen Oncology Massage Practice

Synopsis

The Original Self-paced Learning System Education is undergoing a vast transformation through the creation of new technologies. While the workbook/journal format might seem low tech by comparison, it has an important place in acquiring knowledge and skills. A workbook is the original self-paced learning system. Whether a practitioner is beginning to study massage for people affected by cancer or is deepening their practice, learning occurs through a number of directions: self-study, guided clinical lessons with an experienced teacher, supervised hands-on practice with clients, mentoring, and peer support via group interactions. Medicine Hands, the textbook, addresses the knowledge needed to work safely with these clients. Medicine Hands Therapist Workbook and Journal focuses on practicing with the information so that it becomes more ingrained. The workbook and journal uses the following types of activities to build practitioner knowledge: quizzes, supplemental activities, awareness exercises, reflective questions, ethical dilemmas, touch exercises, case studies. Like Medicine Hands, the workbook and journal continues the use of the pressure, site and position framework as a core tenet.

Gayle MacDonald, MS, LMT, supervises massage therapists in the oncology units of Oregon Health and Science University and is the author of Medicine Hands: Massage Therapy for People with Cancer and Massage for the Hospital Patient and Medically Frail Client.

Great book

This book was used in a class in Lexington KY. Best textbook, very massage therapist friendly. Its a keeper

Medicine Hands has changed my life. I am now committed to helping those with cancer. Thank you Gayle

The workbook was backordered when I first ordered. Received recently. A great supplement to the basic book!

Excellent workbook - many thanks to the author.
